NOTE

From: General Secretariat of the Council
To: Delegations

No. prev. doc.: 13757/2/22 REV 2

Subject: Operational Action Plan 2024-2025: Migrant smuggling

Delegations will find attached the Operational Action Plan 2024-2025 on *Migrant smuggling* developed under the responsibility of the DE driver. The draft OAP was shared with National EMPACT Coordinators (NEC) and brought to the NEC meeting for discussion on 26-27 October 2023.

In line with the agreed OAPs template set out in 10595/22, the participation in operational actions is set out in document 14540/1/23 REV 1.

In accordance with the Council conclusions on the permanent continuation of the EU Policy Cycle for organised and serious international crime: EMPACT 2022 +¹, the Operational Action Plan was agreed by COSI/COSI SG.

An updated version of the document has been made upon request from the driver (DE) and the concerned Action Leader. The change can be found on pages 13, 57 and 58, as follows:

- OA 6.3 (PCCC): Having noticed significant overlaps with the OA 1.8 in the framework of the OAP High Risk Criminal Networks, this OA will not be implemented within the OAP Migrant Smuggling, and it is consequently deleted (strikethrough) both in the table overview of operational actions (OAs) and in the OAP description.
-

¹ 7100/23

Migrant smuggling Operational Action Plan

1. Aim

This Operational Action Plan (OAP) has been created within the EMPACT framework and corresponds to the following priority:

Migrant smuggling

The aim of this priority is “to fight against criminal networks involved in migrant smuggling, in particular those providing facilitation services to irregular migrants along the main migratory routes crossing the external border of the EU and those involved in facilitation of secondary movements and legalisation of residence status within the EU, particularly focussing on those whose methods endanger people’s lives”.

This OAP outlines a list of all the operational actions that will be carried out during the years 2024-2025 as means to implement the following strategic goals:

- CHSG 1 - Criminal intelligence picture
- CHSG 2 - Investigations and judicial response, with a specific focus on high-risk criminal networks (HRCN) and key individuals
- CHSG 3 - Coordinated controls and operations targeting the online and offline trade in illicit goods & services
- CHSG 4 - Criminal finances, money laundering and asset recovery

- CHSG 5 - Document fraud
- CHSG 6 - Capacity building through training, networking and innovation
- CHSG 7 - Prevention and harm reduction, assistance to victims, awareness raising
- CHSG 8 - External dimension: cooperation with non-EU partners

2. Context

2.1. EU Intelligence contributions

Definition of criminal activity/crime area:

Migrant smuggling is the process of facilitating the unlawful entry, transit or residence of an individual in a country with or without obtaining financial or other benefits. Migrant smuggling entails the facilitation of illegal entry to the EU and of secondary movements within the EU. It can also involve facilitating the fraudulent acquisition of a residence status in the EU.

Policy developments:

The activities of the Operational Action Plan ‘Migrant Smuggling’ will contribute to reinforcing the fight against migrant smuggling, as per the New Pact on Migration and Asylum and the EU Security Union Strategy. They will directly contribute to the implementation of the EU action plan against migrant smuggling (2021-2025).

Key threats:

- Migrant smuggling remains a key activity for criminal networks operating in the EU, sustained by continuous demand for facilitation services.
- Criminal networks involved in migrant smuggling have proven to be highly adaptable and able to quickly modify their business model and routes, in response to law enforcement activity, travel restrictions, logistical and environmental changes.
- Migrant smuggling networks increasingly endanger the physical and psychological well-being of irregular migrants, by using violence and life-threatening means of transportation, in their attempt to maximise profits, reduce time and operational costs.
- Facilitation services for secondary movements remain a major concern for the security of the EU; they continue to be in high demand but often remain undetected due to the use of dangerous *modi operandi*.
- The proliferation of sophisticated digital technologies and the widespread use of social media and encrypted communications create opportunities for migrant smugglers to advertise their services, to coordinate among each other and recruit victims, eluding law enforcement intervention.
- Highly organised smuggling networks also maintain connections and internal capabilities to exploit irregular migrants after they have arrived at their destination, often through debt bondage.
- Leaders of smuggling networks have solid managerial skills and are able to orchestrate the criminal business remotely, mostly exposing low-level criminals involved in transport and logistics.

Key developments:

- Migrant smugglers remain flexible in their choice of routes, means of transportation, types of fraudulent documents and the modi operandi used to legalise the stay of irregular migrants.
- Facilitation services are proactively and increasingly offered to irregular migrants already present in the EU.
- Developments in the external environment, such as those generated by the COVID-19 pandemic, highlight the fact that global crises do not significantly disrupt irregular migration flows or diminish the demand for smuggling services. Furthermore, economic effects have and are expected to continue to fuel migration flows towards the EU.
- With a large number of irregular migrants awaiting further, smuggling initiatives have involved a higher degree of risk and a higher cost for migrants than before.
- The hybrid aggression by Belarus through the creation of an artificial migration crisis has led to an uptick in smuggling activity via the Eastern borders route, affecting Lithuania, Latvia, Poland and onward EU destinations.
- Migrant smuggling in small boats across the English Channel to the UK has increased.
- Increasing usage of sophisticated digital technologies and the widespread usage of social media and encrypted communications have become integral parts of the migrant smuggling business model. The use of cryptocurrencies has recently been reported and may increase in the foreseeable future.

Intelligence gaps:

- The extent and routes of facilitated secondary movements within the EU, including the criminal networks involved, and the features of their cooperation with key parallel facilitators.
- Remote management of smuggling networks, often from outside the EU, rendering critical actors unidentified or out of the reach of law enforcement.
- There is a limited view on criminal networks' involvement in enabling the legalisation of irregular migrants' residence in the EU. Known modi operandi involve the misuse of long-stay visa, marriages of convenience, and the use of fraudulent breeder documents to obtain genuine documents.
- Existing links with other criminal activities, specifically the cross cutting elements with trafficking in human beings, and the further exploitation of irregular migrants (sexual, labour, forced criminality, etc.).
- Smuggling of UAMs, as an especially vulnerable category of irregular migrants, and the lack of intelligence needed to track their movement.
- Financial flows generated by migrant smuggling criminal networks remain challenging to trace, making the overall profits difficult to estimate and seize, and impeding the identification of criminal leaders.
- In the context of digitalisation and that of the shift to internet-based platforms, intelligence on digital footprints of criminal networks, including those left in the dark web, and digital evidence to support investigations and prosecution of criminal actors, are limited.

Key locations:

- The three Mediterranean entry routes (Western, Central, and Eastern) are still predominantly used by smuggling networks to introduce irregular migrants into the EU.
- Türkiye remains an important hub for recruitment of migrants entering via the Eastern Mediterranean route.²
- Poland is an important transit hub for smuggled irregular migrants coming via the Eastern borders route, through Russia, as well as Belarus.
- Northern France, Belgium and the Netherlands remain key locations for the recruitment of irregular migrants and a departure point for smuggling towards the UK.
- The facilitation of secondary movements is complex and multidirectional. Migrant smuggling networks continue to facilitate secondary movements from the first points of entry to the EU (mainly, Greece, Italy and Spain), via various routes, to preferred destination countries such as France, Germany and the UK. Reception centres located in the first countries of arrival inside EU territory are often used by migrant smugglers to offer facilitated secondary movements and to recruit new potential customers.
- The Western Balkan region remains a key transit area for secondary movements, where criminal networks proactively offer their services to irregular migrants.

² Different routes towards Cyprus and Greece

Enabling factors/enablers:

- Migrant smuggling often involves the use of fraudulent documents including identity and travel documents or fraudulent visas. Migrant smugglers often cooperate with experts in document forging on a crime-as-a-service basis.
- Digitalisation and the online environment are already omnipresent in the modi operandi of migrant smugglers. They frequently use digital services and tools, such as social media and mobile applications, for various purposes: recruitment, communication, money transfers, pick-up and handover of migrants, mobilisation of migratory movements, guidance, sharing pictures and videos of documents, and countermeasures to law enforcement activities.
- Legal business structures such as rental and transportation companies are used in migrant smuggling activities, as well as companies that provide fake employment documents to obtain residence permits and working visas. Money transfer services, restaurants or stores are used to launder proceeds from migrant smuggling.
- Migrant smuggling networks use experts with knowledge of migration legislation, such as lawyers and other specialists, on a crime-as-a-service basis.

Most relevant (non-EU) partners/countries of interest:

- Afghanistan, Albania^o, Algeria, Bangladesh, Belarus, Bosnia and Herzegovina^o, Brazil^s, China^s, Cote d'Ivoire, Egypt, Eritrea, Ethiopia, Gambia, Guinea, Iraq, Iran, Jordan, Kosovo^{*w}, Lebanon, Libya, Mali, Mauritania, Moldova^o, Morocco, Montenegro^o, Niger, Nigeria, North Macedonia^o, Pakistan, Russia^{s3}, Senegal, Serbia^o, Syria, Sudan, Switzerland^o, Tunisia, Türkiye^s, Ukraine^o, United Kingdom^w, Vietnam
- Private sector (transportation companies, providers and developers of digital tools, providers of public transportation, parcel services, banking sector, rental sector, travel agencies, air companies, commercial actors legally purchasing goods used in migrant smuggling)
- Other relevant actors internationally operating in this domain: INTERPOL^o, UNODC^s, IOM, ICMPD

^o Operational Agreement with Europol

^s Strategic Agreement with Europol

^w Working arrangement

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244/99 and the ICJ opinion on the Kosovo declaration of independence.

³ Strategic agreement has been suspended in the context of the Russian war of aggression against Ukraine.

Key areas to target:

- Target criminal networks involved in migrant smuggling focusing on High Value Targets jointly identified at EU level and in partner countries of relevance, and reinforce transnational investigations;
- Disrupt criminal networks involved in the facilitation of secondary movements and in legalisation of residence status within the EU;
- Enhance investigations into migrant smuggling criminal networks engaging in exploitation of irregular migrants;
- Target overlapping with other criminal areas, including joint use of routes and infrastructure supporting commodity based criminal activities;
- Enhance investigations into the logistical supply chains supporting migrant smuggling operations;
- Disrupt criminal networks involved in the production and provision of fraudulent documents for migrant smuggling;
- Initiation and/or continuation of systematic investigations into parallel financial flows and infrastructure, with a view to identify and seize criminal assets;
- Focus on digital tools and services used by criminal networks in order to increase law enforcement capabilities and reach leaders of the networks managing criminal activities remotely;
- Enhance collection and exploitation of travel and custom intelligence, in support of migrant smuggling investigations;
- Establish or increase cooperation with the private sector, including car rental and transportation companies, digital solutions' suppliers and developers, or money transfer services.

Additional elements to the intelligence picture from Driver & OAP participants: none.

3. Structure

The OAP is essentially a coordination overview presenting the general outline of OAs, rather than the specific detail of each OA and does not include sensitive nor classified information. These details will be found in the related OA planned implementation document based on the Planning and reporting template.

An overview of the OAs within this OAP, that should be updated whenever relevant, can be seen below.

Overview of OAs:

No	OA	AL	Short title
1	1.1	EUROPOL	Situational picture of migrant smuggling
2	1.2	EUROPOL	Use/abuse of legal business structures (LBS)
3	2.1	PL	URSUS
4	2.2	EL	East Med
5	2.3	DE	Risk
6	2.4	IT	Central MED Route
7	2.5	FR	JOT DIUNKETT
8	2.6	FR	Small Boats
9	2.7	ES	Stopover
10	2.8	EUROPOL	JOT MARE
11	2.9	PT	Bride
12	2.10	CY	AKRITAS
13	2.11	FRONTEX	Reflex 2024/25
14	3.1	FR	JOT B@lltring
15	4.1.	United Kingdom	Hawaladar mapping

No	OA	AL	Short title
16	5.1	FR	DOC FRAUD
17	5.2	FRONTEX	CED
18	5.3	DE	Joint Expert Teams (JETs)
19	5.4	Frontex	TRU -Training activities on document and identity fraud
20	6.1	CEPOL	LE cooperation and capacity building through learning and training
21	6.2	eu-LISA	Training EURODAC & SIS II
22	6.3	DE	PCCC
23	7.1	FRONTEX	EUROSUR
24	8.1	AT	Task Force Western Balkans
25	8.2	EUROPOL	Information Clearing House
26	8.3	CEPOL	EU Neighbourhood Projects

Action leaders – relevant actors: AT, CY DE, EL, ES, FR, PL, PT, CEPOL, EUROPOL, EUROPEAN COMMISSION, eu-LISA, FRONTEX

Action leaders – partners: United Kingdom

4. Management, Coordination & Support

4.1. OAP Management

Overall management responsibility for this OAP lies with the Driver, supported by the Co-Driver(s) of the OAP as identified by COSI and set out in the list of relevant actors.

Each OA of this OAP has a designated Action Leader duly tasked and empowered for this role, assisted if required by a Co-Action Leader.

Management responsibility for each operational action is outlined in the list of operational actions.

The management of the OAP shall be in line with the EMPACT Terms of Reference.

4.2. OAP support

In order to allow the Driver to focus on OAP management, Europol shall provide the support to the OAP in line with the EMPACT Terms of Reference.

Furthermore, the Coordinator(s) of CHSGs, in line with the tasks and responsibilities set out in the EMPACT Terms of Reference, will support the various Drivers/Co-Drivers with all issues related to the successful implementation of CHSGs, together with the Action Leaders and the OAP group.

4.3. Information management

The Europol Analysis Projects shall be the primary means by which operational data emanating from the operational actions within this plan shall be processed. Other Europol tools may also be used where appropriate.

It is recommended that all operational information exchange within the OAP shall be done using the Secure Information Exchange Network Application (SIENA), which provides a quick, secure and auditable means of communication between all competent authorities and Europol. Proper access to SIENA should be ensured as necessary for the implementation of OAs.

5. Methodology

5.1. OAP drafting process

The OAP drafting process has recently been modified to adapt to changing circumstances and a continuous increase in the number of participants. The details on the OAP drafting process for EMPACT 2022+, including the engagement of the Partners in the drafting and implementation, the release of the OAP to the Partners as well as the specific steps of the OAP development can be found in the EMPACT Terms of Reference.

The scope of the OAs included in the OAP corresponds to the EU SOCTA 2021 and additional intelligence contribution gathered by the OAP groups.

When available, the actions should also include administrative measures. Wherever possible, due use will be made of opportunities and processes for a wider inter-agency approach.

The OAP will be validated by COSI SG/COSI.

5.2. Implementation

The OAP will be implemented via the set of OAs and timescales contained in the OAP. The Driver, assisted by the Co-Driver, will be the authority to execute or delegate the management/leadership of a specific OA to the Action Leader, who then has the responsibility for initiating and reporting on each action to the Driver.

Member States are invited to integrate the relevant OAs developed in the OAP at the appropriate level into their national planning and to allocate resources to support a common EU approach. Similarly, the agencies and relevant EU networks, should commit the actions developed into their annual work programmes pursuant to the Council conclusions on the permanent continuation of the EU Policy Cycle for organised and serious international crime: EMPACT 2022+ and the EMPACT Terms of Reference.

5.3. Monitoring and reporting

The reporting is composed of three steps: 1. light reporting on the progress of the OAP, 2. Comprehensive reporting on the results of the OAP and 3. Annual fact sheets on the results of OAP.

Monitoring and reporting shall be done in line with and using the template set out in the reporting mechanism.

Draft Operational Action Plan 2024-2025

Migrant smuggling

EU crime priority/OAP: Migrant smuggling - OAP 2024-2025

List of actions

Strategic Goal 1: Criminal intelligence picture

Objective: develop or keep updated, through the detection of intelligence gaps, the monitoring of threats (including from high-risk criminal networks – HRCN), trends and new developments (e.g. the use of new technologies), and the identification of links to other crime areas, the strategic and operational intelligence picture relating to each EU crime priority, and to integrate it in the strategic and operational planning of the relevant stakeholders.

Ref.: OA 1.1.	Leader: EUROPOL
Activity summary of the Operational Action	
Title: Situational picture of migrant smuggling	
<p>Provision of the situational picture of migrant smuggling. Delivery of the strategic intelligence, threat assessment and other analysis products. Update on migratory routes to/within and from the EU, nationalities involved, modi operandi, the criminal networks involved in migrant smuggling, current and possible future trends/ scenarios building. Including dedicated and focused thematic strategic analysis on tools facilitating migrants smuggling, increasing phenomenon and potential links to other crime area (for example document fraud, digital smuggling, secondary movements THB etc.)</p> <p>EMLO reports will be made accessible to Europol to enhance the situational picture.</p> <p>Monitoring emerging crisis in key areas with potential impact at the EU external borders as well as migrant smuggling to/within the EU. (e.g. Afghanistan, Ukraine, Belarus).</p> <p>Open for Member States and third countries.</p>	
Key Performance Indicators (KPIs) and targets	
a) Number of strategic intelligence / risk analysis products issued by Europol and Frontex (minimum: 80 EPMTs, 6 ad-hoc strategic/thematic reports contributing to EU situational awareness)	
b) Number of the updates provided during the Migrant Smuggling EMPACT meetings.	
c) Number of joint Europol-Frontex analytical products.	
d) Number of focused thematic reports, such as secondary movements etc.	
e) Number of contributions regarding emerging crisis or arising threats	
Type of Operational Action	
<i>2-Data collection/data exchange, 3-Strategic</i>	

Activities under the Operational Action and timing	
Activity	Timing
1) European Migrant Smuggling Centre (EMSC) to provide Early Warning Notifications and Intelligence Notifications to ENUs and specifically to participants to the priority. Preparing and sharing Europol strategic analysis products on migrant smuggling on a regular basis, including the EPMT (Europol Monitoring Team) reports, to participants of the priority (e.g. threat assessments, risk assessments, gap analysis, stakeholder analysis, strategic country reports, tactical analysis).	Q1-Q4 2024/25
2) Preparing and sharing Frontex analytical products on regular basis to participants of the priority (e.g. monthly analysis, Annual Risk Analysis report, thematic analysis such as European Union Document-Fraud annual risk analysis, Eastern Partnership (EaP-RAN) products, Africa-Frontex Intelligence Community (AFIC) products, Western Balkans (WB-RAN) products, Turkey-Frontex (TU-RAN) products).	Q1-Q4 2024/25
3) Drafting strategic joint analytical product(s) but also tactical ones if justified by operational needs (e.g. planning of common JAD coordinated/participated by both Agencies) or secondary movement in EU perusal).	Q1-Q4 2024/25
4) Regular updates on migratory pressure at the EU external borders and within the secondary movements as well as the investigation on migrant smuggling overview at EMPACT migrant smuggling review meetings delivered together by Europol and Frontex.	Q1-Q4 2024/25
Links to other Operational Action Plans (OAP)/priority	
Potential links to the OAP THB	
Horizontal activities / Joint Action Days (JAD)	
Joint analytical products to be issued prior to the implementation of the selected JADs shared by Frontex and Europol.

Activity	Timing										
1) Collection and collation of strategic and operational data available at Europol on LBS	Q1 2024										
2) Online workshop with OA participants across participating OAPs	Q2 2024										
3) Analysis of data provided to Europol for EU SOCTA (2021 / 2025)	Q3 2024										
4) Drafting strategic analysis report	Q4 2024										
<p>Links to other Operational Action Plans (OAP)/priority</p> <p>Proposed for all OAPs</p>											
<p>Horizontal activities / Joint Action Days (JAD)</p>											

Strategic Goal 2: Investigations and judicial response, with a specific focus on high-risk criminal networks (HRCN) and key individuals.

Objective: prepare and conduct investigations, coordinated actions, and prosecutions, in each EU crime priority, to detect, identify and disrupt criminal networks active in the EU, and individuals with key roles in these networks, with a special emphasis on high-risk criminal networks (HRCN) undermining the rule of law by using corruption and intimidating power in order to infiltrate a Country’s legal economy and administrative management system, those who commit acts of violence and use firearms to further their criminal goals and take advantage of vulnerable groups, as well as those who launder their criminal proceeds through a parallel underground financial system.

Ref.: OA 2.1	Leader: PL (Police Forces)
Activity summary of the Operational Action	
URSUS	
Eastern Borders of the EU	
<p>Detection and disruption of OCGs involved in the process of organising illegal immigration, facilitation and smuggling of migrants via Russia, Belarus and Ukraine to Europe.</p> <p>The scope of the operation includes all types of migrant smuggling phenomena/modi operandi across land, air and sea borders and all nationalities of migrants.</p> <p>Particular attention will be paid to the secondary movements, current operational picture regarding the Belarusian border with Lithuania and Poland and the involvement of OCGs operating on both the Baltic and Balkan routes.</p>	
Key Performance Indicators (KPIs) and targets	
a) Number of OCGs identified/dismantled – 20 per year	
b) Number of initiated and supported investigations – 100 per year	
c) Number of facilitators arrested – 200 per year	
d) Number OTFs and HVTs – at least 1 per year	
Type of Operational Action	
<i>1-Operational, 2-Data collection/data exchange,</i>	

Activities under the Operational Action and timing

Activity	Timing
1) Organisation of an operational (kick-off) meeting for participants in the action to discuss planned activities and exchange operational information. Organise an annual meeting to summarise the activities carried out.	Q1, Q4 2024/25
2) Collection and exchange of intelligence via SIENA between participating MS and Europol in the area of activity. With the support of the EMSC, analyses of the shared intelligence will be made available to the participants in the form of cross match reports/operational reports.	Q1- Q-4 2024/25
3) Operational meetings	Q1- Q4 2024/25
4) Enhance operational cooperation between third countries and MS	Q1- Q-4 2024/25
5) Support the participants in their actions, both strategically and operationally: - Use available tools such as OTF, JIT when needed - Prioritise joint arrests and joint activities - Supporting the use of financial resources	Q1- Q4 2024/25

e) Number of EMPACT Action Days. At least 1 per year.						
Type of Operational Action <i>1-Operational, 2-Data collection/data exchange</i>						

Activities under the Operational Action and timing

Activity	Timing
1) Collection and analysis of information by Greece and other participating MS, targeting organised migration crime and coordinating the actions undertaken by the Hellenic LEAs in combating migrant smuggling, with a view to improve the intelligence picture and establish whether concrete criminal acts have been committed or may be committed in the future. Identification of High Value Targets (HVT) under the umbrella of potential Operational Task Forces (OTF) and high priority transnational migrant smuggling cases. Information and intelligence cross-checking and exchange regarding smuggling activities from Türkiye to Greece and further on to South East, Central and Western Europe, suspicious financial transactions and social media accounts facilitating illegal migration through SIENA with EUROPOL and relevant MS and INTERPOL, in case of Third Country involvement. Special attention will be paid to criminal intelligence operations focusing on migration logistical hubs (e.g. accommodation, transportation), the intermediaries involved (e.g. Legal Business Structures), the supply and use of false documents (e.g. print-shops), including the online sale, other migrant smuggling services offered on social media (e.g. smuggling packages) and the financial assets of migrant smuggling networks.	Q1- Q4 2024/25
2) Dissemination of analytical findings and social media reports regarding the OCGs activities among MS or 3rd countries for further development and exploitation aiming at identifying concrete connections or other relevant links between information related to persons who are suspected of having committed or taken part in migrant smuggling.	Q1- Q4 2024/25
3) Conduct parallel or joint investigations with a view to identifying facts and suspects regarding concrete criminal acts, involving concerned MS, 3rd countries and Europol EMSC staff at the EURT Piraeus and consider the development of parallel financial investigations, supported by EUROPOL. Organize and participate to operational meetings with the relevant actors. Focus on tracing financial flows and criminal assets with a view to seizing and confiscating them, as well as the production, purchase and retail of false documents. Hold operational meetings, with the participation of relevant countries, EUROPOL, EUROJUST and INTERPOL, where applicable, to develop and coordinate further operational actions.	Q1- Q4 2024/25
4) Launch EMPACT action days to dismantle smuggling networks and seize criminal proceeds or other relevant commodities.	Q1- Q4 2024/25

THB

Horizontal activities / Joint Action Days (JAD)

Connection with MLAR, depending on each individual case's characteristics.

Ref.: OA 2.3	Leader: DE (Police Forces)				
<p>Activity summary of the Operational Action</p> <p>OA Risk - Investigative action targeting OCGs smuggling migrants by transporting them clandestinely in concealments primarily related to the Balkan routes and into and within EU-MS. This pertaining modus operandi poses considerable threat to health and lives of the smuggled migrants. There are frequent apprehensions of irregular migrants in Central and Western Europe and in the Balkan region, who are smuggled in these dangerous conditions by OCGs operating from various hubs.</p> <p>To tackle this phenomenon effectively, there is a need for a focused, dedicated and coordinated approach. The action will be carried out in conjunction with the Task Force Western Balkan activities. The aim of the action is to jointly identify and arrest the key facilitators and disrupt OCGs operating from various hubs by conducting common investigations, central analyses by AP Migrant Smuggling and joint operational activities in all concerned countries. Strong involvement of Third Countries is inevitable to successfully combat this highly dangerous phenomenon. The focus on financial investigations shall support the gathering of further intelligence and enhance the effectiveness of disruption of the criminal activities.</p> <p>The OA is linked with the ISF COP projects SCOPE and SCOPE II focusing on building Common Operation Partnership with Western Balkan countries and Türkiye. This COP is instrumental to enhance cooperation with law enforcement and judicial authorities of the abovementioned countries. Additional support might be received by the IPA III project.</p>					
<p>Key Performance Indicators (KPIs) and targets</p> <table border="1" data-bbox="164 1218 1425 1473"> <tr> <td data-bbox="164 1218 1425 1283">a) Number of initiated and supported investigations (300/year)</td> </tr> <tr> <td data-bbox="164 1283 1425 1348">b) Number of detected irregular migrants (5000/year)</td> </tr> <tr> <td data-bbox="164 1348 1425 1413">c) Number of facilitators apprehended or arrested (500/year)</td> </tr> <tr> <td data-bbox="164 1413 1425 1473">d) Number of initiated JITs, JADs, OTFs and CADs (1 each/year)</td> </tr> </table>		a) Number of initiated and supported investigations (300/year)	b) Number of detected irregular migrants (5000/year)	c) Number of facilitators apprehended or arrested (500/year)	d) Number of initiated JITs, JADs, OTFs and CADs (1 each/year)

Activities under the Operational Action and timing

Activity	Timing
1) Intelligence gathering and sharing	Q1-Q4 2024/25
2) Operational meetings	Q1-Q4 2024/25
3) Common operational activities (JADs and CADs)	Q1-Q4 2024/25
4) Reporting and evaluation	Q1-Q4 2024/25

Links to other Operational Action Plans (OAP)/priority

Due to the high amount of criminal profit within this MO, the OA is linked to financial investigations. An additional link to High-risk criminal networks might also be established due to the high level of professionalism shown by operating OCGs.

Horizontal activities / Joint Action Days (JAD)

The participation within JADs is intended

Ref.: OA 2.4	Leader: IT (Police Forces)				
<p>Activity summary of the Operational Action</p> <p>Title: "Central MED Route"</p> <p>The aim of the action is to detect and disrupt organized crime groups active in migrant smuggling by developing and conducting intelligence led operations, investigations and prosecutions and by creating ad-hoc investigative/operational task forces whenever necessary.</p> <p>In the last few years, an unprecedented migration wave has hit Europe and Italy along the Central Mediterranean Route and numbers of migrants crossing the Mediterranean have increased significantly. The geopolitical situation will still play an important role in 2024-2025.</p> <p>The action improve and make effective the real-time information exchange (as well as financial data) and the operational response, including the exchange of intelligence/information with Europol and Eurojust, to enhance investigations in source, transit and destination countries along the Central Mediterranean Route.</p> <p>Tailored operational and coordination meetings are envisaged in the framework of the investigations. These events shall be funded when necessary; videoconferences are envisaged to take place on frequent basis.</p> <p>The action will focus in 2024-2025 also on fostering/boosting cooperation with departure and transit countries, through running of tailored operational initiatives.</p>					
<p>Key Performance Indicators (KPIs) and targets</p> <table border="1" data-bbox="164 1279 1399 1570"> <tr> <td data-bbox="164 1279 1399 1346">a) Number of identified and arrested criminals active along the CMR. OA 5.1 JOT DOC FRAUD

Horizontal activities / Joint Action Days (JAD)

Ref.: OA 2.6	Leader: FR (Police Forces)
Activity summary of the Operational Action <p>JOT SMALL BOATS focuses on the issue of "Small Boats", also known as the specific phenomenon of migrants crossing the Channel on inflatable boats, assisted by smugglers in their activities.</p> <p>French and Belgium coasts are only dozens of nautical miles away of the British ones, making the use of small boats more affordable for migrants.</p> <p>The phenomenon has grown steadily in recent years, and several boats are sometimes launched at the same time, making this practice a real threat to the safety and lives of migrants attempting the crossing, as well as the law enforcements agents intervening in risky conditions.</p>	
Key Performance Indicators (KPIs) and targets a) Number of OCGs dismantled (2) b) Number of JIT created (2) c) Number of facilitators arrested (100) d) Number of boats seized (100)	
Type of Operational Action <i>1-Operational, 2-Data collection/data exchange,</i>	

Activities under the Operational Action and timing

Activity	Timing
1) Weekly deployment of investigators on the ground, for surveillances and prevent departures of small boats	Q1-Q4 2024/25
2) Once OCG has been detected, fieldwork must be carried out to identify the members and operating methods of this network. Various operations are set up on the ground to dismantle criminal networks, involving the use of special investigative techniques and sometimes specific equipment.	Q1-Q4 2024/25
3) Given the changing trends and strategies of criminal groups, this action aims to develop the coordination of member countries and the adaptation of common strategies in the face of this threat. Strategic meetings aimed at coordinating this effort in terms of judicial response and strategies to combat the phenomenon should therefore be organised.	Q1-Q4 2024/25

Potential links to the OAP THB

Horizontal activities / Joint Action Days (JAD)

This OA is envisaged to also provide tailored support JAD(s) organised with the participation of MS, Europol, Interpol as well as Third countries.

Ref.:	Leader: PT (Police Forces)
OA 2.9	

Activity summary of the Operational Action

Operation Bride - to identify and disrupt OCGs linked to marriages of convenience abuse and associated threats, with special focus on document fraud. Due to the poly-criminality nature of this modus operandi for migrant smuggling, this OA reveals a high level of complexity and embraces several interlinked illegal activities carried out by the OCGs when facilitating and organizing marriages of convenience. This requires in many occasions a multi-disciplinary approach. Besides the marriage of convenience itself, which is already criminalized in many Member States, the other illegal activities include frequently document fraud /forgery of documents, money laundering, corruption, and others, with potential links to THB.

Description of Activities:

- Identify OCGs active in marriages of convenience and changes in MO
- Enhancing collection of information and intelligence picture in relation to the OCGs, and report based on the findings
- Organize operational/strategic meetings to exchange intelligence and discuss possible Joint Operations, EMPACT Action Days and/or JADs, namely an Operational Meeting with all the participating MSs and EU Agencies, as a way to better align operational strategies and different approaches to the phenomena, and also to prepare an operational JAD during 2024 (Q2)
- Identify best practices and lessons-learned from joint operations and compile the information collected into a "Compendium of good practices" (Q4).
- Identify relevant third countries as a way to develop operational cooperation focused on the origin of OCGs organizing marriages of convenience and exploiting migrants for this purpose, as previously identified by the participating MSs.

Key Performance Indicators (KPIs) and targets

a) Number of OCGs identified or disrupted (12)
b) Number of cases (400)
c) Number of OTF's and JIT's (2) - 1 per year
d) Number of Joint Action Days (2)

Type of Operational Action:

1-Operational, 2-Data collection/data exchange

Activities under the Operational Action and timing (Short description– 5 lines maximum per activity)

Activity	Timing
1) Operational meeting, with the participating countries (EUMS and Third countries) and EU Agencies, in order to identify main cases for 2023 and plan operational activities.	Q2 2024/25
2) Execution of the Joint Action Day.	Q1-Q4 202/25
3) Identification and analysis of best practices in order to collect data for a "Compendium of good practices".	Q3-2025
4) Identification of new cases as basis to set up of parallel investigations in 2025.	Q1-Q4 2024/25
5) Reporting and evaluation operational meeting 2024/2025	Q4 2024/25

a) Number of EMPACT Action Days. At least 1 per year.					
b) Number of smugglers-facilitators arrested. At least 10 per year					
c) Number of seizures/ detections of false documents/impersonations/visa frauds. At least 30 per year.					
Type of Operational Action <i>(1-Operational, 2-Data collection/data exchange)</i>					

Activities under the Operational Action and timing (Short description– 5 lines maximum per activity)

Activity	Timing
1) Collection and analysis of information by Cyprus and other participating MS, targeting organised migration crime and coordinating the actions undertaken by the Cypriot LEAs in combating migrant smuggling, with a view to improve the intelligence picture. Identification of high priority transnational migrant smuggling cases. Information and intelligence cross-checking and exchange regarding smuggling activities from Turkey to Cyprus, and further on to Europe, through SIENA with EUROPOL and relevant MS and INTERPOL, in case of Third Country involvement. Special attention will be paid to criminal intelligence operations focusing on migration logistical hubs (e.g. accommodation, transportation), the intermediaries involved, the supply and use of false documents.	Q1-Q4 2024/25
2) Dissemination of analytical findings and reports regarding the OCGs activities among MS or 3rd countries for further development and exploitation aiming at identifying connections or other relevant links between information related to persons or OCGs who are suspected of facilitating or taken part in migrant smuggling.	Q1-Q4 2024/25
3) Organisation of operational meetings to set a common strategy/approach to tackle OCGs, sharing investigation methods, ongoing cases, etc.	Q1-Q4 2024/25
4) Organize and participate to operational meetings with the relevant actors. Tracing on the production and selling of false documents	Q1-Q4 2024/25
5) Launch EMPACT action days to dismantle smuggling networks and arrests of facilitators.	Q1-Q4 2024/25

JAD when deemed necessary

Ref.: OA 2.11	Leader: FRONTEX					
<p>Activity summary of the Operational Action:</p> <p>REFLEX 2024/25: Border checks and surveillance measures focused on the EU external borders combined with the other type of operational activities set by EU MS, SACs and TCs as well as JHA Agencies if relevant. Frontex share to be implemented by means of Joint Operations, but also Rapid Border Interventions and Pilot Projects if needed. Applicable as EAD or JAD or other operational activity agreed with other stakeholders. Devised as a flexible, prompt and tailored response to emerging poly-criminal threats at, along and in the proximity of the EU external borders with the prevailing migrant smuggling factor associated by other threats. Ideally suited to react to Early Warning Notifications, other analytical products, or a specific request from a MS.</p>						
Key Performance Indicators (KPIs) and targets						
<table border="1"> <tr> <td data-bbox="129 831 1461 898">a) Number of apprehensions/arrests made (1,000)</td> </tr> <tr> <td data-bbox="129 898 1461 965">b) Number of suspected migrant smugglers apprehended (20)</td> </tr> <tr> <td data-bbox="129 965 1461 1032">c) Number of document fraud incidents detected (20)</td> </tr> <tr> <td data-bbox="129 1032 1461 1099">d) Number of hits generated in Europol and Interpol databases (5)</td> </tr> <tr> <td data-bbox="129 1099 1461 1160">e) Number of entities sent via SIENA by MS, SACs, EU Agencies and third countries (100)</td> </tr> </table>		a) Number of apprehensions/arrests made (1,000)	b) Number of suspected migrant smugglers apprehended (20)	c) Number of document fraud incidents detected (20)	d) Number of hits generated in Europol and Interpol databases (5)	e) Number of entities sent via SIENA by MS, SACs, EU Agencies and third countries (100)
a) Number of apprehensions/arrests made (1,000)						
b) Number of suspected migrant smugglers apprehended (20)						
c) Number of document fraud incidents detected (20)						
d) Number of hits generated in Europol and Interpol databases (5)						
e) Number of entities sent via SIENA by MS, SACs, EU Agencies and third countries (100)						
Type of Operational Action <i>1-Operational, 2-Data collection/data exchange</i>						

Activities under the Operational Action and timing

Activity	Timing
1) Select the BCPs and border sections based on the risk analysis and settlements with MS and third countries.	Q1-Q4 2024/25
2) Carry out effective border control including checks and surveillance at selected EU external land borders in order to prevent, detect and combat migrant smuggling and other types of cross-border crime.	Q1-Q4 2024/25
3) Gather intelligence to improve the identification of the OCGs, which could trigger the investigations in MS, also facilitate further identification of the responsible OCGs and to support MS criminal investigations also through Europol.	Q1-Q4 2024/25
4) Detect the cases of migrant smuggling as well as document fraud, identify and apprehend the suspects, identify imposters and other fraud document users.	Q1-Q4 2024/25
5) Enhance operational cooperation between EU Agencies, MS, SACs and TCs.	Q1-Q4 2024/25
6) Prepare and coordinate EAD or JAD(s) if justified in relation to selected EU external border locations (air, land, sea dimension possible) based on the intelligence picture/risk analysis enriched by the perusal of the cases revealed during the first quarter of the implementation of OA.	Q2-Q4 2024/25
7) Exercise tailored Europol support with the operational tools and capabilities as well make use of Interpol's databases and capabilities within EAD or JAD(s) if organized.	Q1-Q4 2024/25

Links to other Operational Action Plans (OAP)/priority

Potentially all OAPs given the flexible nature of the OA.

Horizontal activities / Joint Action Days (JAD)

Within this OA, JAD(s) will be organised with the participation of MS, Europol, Interpol as well as Third countries.

Operational Activity Reflex 2024/25 has the potential to support other JADs related to any domain coordinated either by MS or EUROPOL (e.g. Large Scale JAD) and/or JCO(s) organized under LEWP-Customs

Strategic Goal 3: Coordinated controls and operations targeting the online and offline trade in illicit goods & services

Objective: target – notably through coordinated controls and operations – criminal networks, individual criminal entrepreneurs, high impacts vendors and facilitators, their business models and other actors involved in the online and offline trade in illicit goods and services, with a special attention to those active in the markets that are related to an EU crime priority.

Ref.: OA 3.1	Leader: FR (Police Forces)
Activity summary of the Operational Action JOT B@LLTRING Improve the law enforcement response against those utilising the Dark Web and other internet messenger applications to enable illegal immigration and Document Fraud through a co-ordinated and multi-disciplinary approach. Enhance the information regarding the use of Dark Web and internet messenger applications to facilitate migrant smuggling and document fraud. Build common investigations (joint action days, joint investigation team) when it's possible and relevant.	
Key Performance Indicators (KPIs) and targets	
a) Number of intelligence packages provided to Member States (2)	
b) Number of targets, involved in illegal immigration and document fraud activities, identified through cyber patrol (5)	
c) Number of HVT identified (1)	
d) Providing or sharing tools and information (eg search terms, OCG, online behaviour, platform vulnerabilities) to enhance capacity to fight Migrant Smuggling (1)	
Type of Operational Action <i>1-Operational, 2-Data collection/data exchange</i>	

Activities under the Operational Action and timing

Activity	Timing
1) To deliver an awareness workshop highlighting the challenges of media investigations on the internet and to share national and international experiences on tools used to conduct investigations, as well as the latest updates of the threat. (with a LE and judiciary perspective).	Q1 2024
2) Coordinate and ensure the joint law enforcement action aiming at the identification of HVT involved in the on-line trade in illicit goods and services focused on migrant smuggling and Document Fraud (e.g. via the participation to the JAD Cyber Patrolling).	Q1-Q4 2024/25
3) Development of a new project named B@lltring CPMO (B@lltring Collaborative Platform Mobile Office). The first step was to give the equipment to FR and SPAIN cyber teams, the second step was about training (in France) on a powerful and customizable search application.	Q1-Q4 2024/25
4) Participate to EUROPOL Cyberpatrol to target and identify new HVT, or to the next HEG (Horizontal Expert Group) meeting	Q1-Q4 2024/25

Links to other Operational Action Plans (OAP)/priority**Horizontal activities / Joint Action Days (JAD)**

Strategic Goal 4: Criminal Finances, Money Laundering and Asset Recovery

Objective: Combat the criminal use of financial structures including money laundering, facilitate asset recovery and confiscate proceeds of crime, disrupt criminal infiltration by involving specialised financial investigators, where relevant, as part of investigations in the EU crime priorities, and develop a culture of asset recovery through training and financial intelligence sharing.

Ref.: OA 4.1	Leader: United Kingdom (Police Forces)
Activity summary of the Operational Action	
Title: HAWALADAR MAPPING	
<p>The use of Hawaladars is a culturally typical practice amongst many of the migrant nationalities seeking to enter Europe. Money flows within hawaladar networks tend to combine transactions made through the formal banking system along with value movements made informally, which leads to particularly complicated flows and often purposefully broken audit trails.</p> <p>The objective of the Operational Action is to build upon the existing knowledge base across EUMS in order to then disrupt this complex and challenging aspect of the illicit finances associated with migrant smuggling. This will be delivered through a phased approach to the collection, collation, enhancement and analysis of intelligence. It will seek to identify who the dominant actors are, how and where along the whole of the migratory routes they interact with other hawaladars, the financial flows and the vulnerabilities that law enforcement can exploit. Opportunities can then be identified for JITs or OTFs, leading to JADs in which the objective will be to simultaneously arrest and disrupt multiple hawaladars. Evidence collected from a network of interacting hawaladars should place investigators in a better position to determine financial audit trails for prosecution purposes.</p>	
Key Performance Indicators (KPIs) and targets	
a) Number of Hawaladars identified in EUMS and European third countries. At least 20.	
b) Number of Hawaladar identified in non-European third countries. At least 5.	
c) Number of Hawala networks identified from intelligence analysis. At least 1.	
d) Number of new judicial investigations initiated as a result of Europol analysis with support from Eurojust. At least 1.	
e) Number of Hawaladars arrested. At least 1.	
f) Value of cash or other assets seized. At least EUR 50,000.	
Type of Operational Action	
<i>1-Operational, 2-Data collection/data exchange</i>	

Activities under the Operational Action and timing

Activity	Timing
1) Organisation of virtual/physical kick-off and progress review meetings for all participants, to maintain OA momentum and address any barriers to delivery.	Q1-Q4 2024/25
2) Intelligence collection and enhancement phase 1 – Hawaladar intelligence already held by participants.	Q1 2024
3) Intelligence collection and enhancement phase 2 – Pro-active Hawaladar intelligence collection by participants.	Q2-Q4 2024/25
4) Analysis by Europol of all Hawaladar intelligence submitted by participants to identify networks and in conjunction with Eurojust to initiate JITs or OTFs.	Q1-Q4 2024/25
5) Deployment of subject matter experts to support investigators on an ad-hoc basis if necessary in EUMS or third countries. (LVG funding may be required).	Q2 Q4 2024/25
6) Organisation of operational meetings to ensure that we collectively maximise the scope and impact of judicial action in both the EU and third countries.	Q2-Q4 2024/25

Strategic Goal 5: Document Fraud

Objective: target criminal networks or criminal individual entrepreneurs active in the production and provision of fraudulent and false documents or identification marks by involving specialised investigators, where relevant, as part of investigations in the EU crime priorities.

Ref.: OA 5.1	Leader: France (Police Forces)
Activity summary of the Operational Action	
<p>Document fraud is a poly criminal activity that enables OCGs members to operate migrant smuggling business on a large scale. The OA aims at tackling OCGs involved in production/distribution of forged or falsified administrative documents to facilitate illegal immigration and other criminal activities linked to migrant smuggling.</p> <p>The OA aims at strengthening the cooperation between MSs and third countries. In this regards, the OA provides intelligence pictures to investigation teams, operational support to lead common action days and supports operational meetings.</p> <p>The OA aims at detecting new counterfeit/falsified identity documents. Besides the dismantling of print shops, the OA also aims at feeding the ProFID system (Profiling of fraudulent identity and travel documents), the dedicated tool for the analysis and the crosschecking of series, enabling forensic to be linked with investigation. (Creation of ProFID series per each investigation case to make link between false documents seized in different countries)</p> <p>The OA ensures a close cooperation with EMSC of EUROPOL for the monitoring of intelligence on document fraud investigation cases and between Member States in the framework of the dedicated group the "Document Fraud Investigation Group" (DFIG) led by France and co-led by the centre of Excellence for Combating Document Fraud of FRONTEX which gathers document experts, investigators and EU agencies twice a year to discuss on international cooperation for tackling document forgery in all type of crime areas.</p>	
Key Performance Indicators (KPIs) and targets	
a) Number of investigations to be covered: at least 2	
b) Number of documents registered into ProFID: at least 50 per year	
c) Number of OCGs dismantled (print shop): at least 01	
d) Number of seized documents: 300	
Type of Operational Action	
<i>1-Operational, 2-Data collection/data exchange</i>	

Activities under the Operational Action and timing (Short description– 5 lines maximum per activity)

Activity	Timing
1) One strategic online meeting: Gathering the participating countries for a state of play on document fraud investigation cases. Identifying required financial support.	Q1-Q2 2024/25
2) Follow-up on investigation cases conducted by Member states and the outcomes (number of arrest, number of document seized, document registered into ProFID) during the Document Fraud Investigation Group meeting. (2 per years)	Q1-Q4 2024/25
3) Support operational actions via low value grant: organising deployment on the field and operational meetings when needed.	Q1-Q4 2024-25

<p>JOINT (Document and Facial Comparison) EXPERT TEAMS "JETs"</p> <p>The operational action aims at tackling facilitated illegal immigration by increasing the ability of police and border authorities to detect forged and falsified documents as well as the misuse of documents (look-a-like). The action focusses on the internal EU / internal Schengen (secondary movements) as well as on external borders. A special focus shall be on the borders of the Western Balkan states. Nevertheless, also police forces inland should be supported with the aim of detecting and investigating illegal migration.</p> <p>Therefore the following steps/actions will be carried out:</p> <ol style="list-style-type: none"> 1. Establishment of temporary online "Helpdesk" and the support of setting up or operate permanent online "Helpdesk" of document and facial recognition experts (Joint Expert Teams - JETs) by Member or Third States during "Joint Action Weeks" or during special occasions like Olympic Games or European / World championships, in order to provide a 24/7 service to police and border authorities regarding the verification of documents and the carrying out of identity checks by facial image comparisons. 2. Training sessions regarding facial recognition, especially in preparation of the Action Weeks for JET members (experts serving at the online "Helpdesk") 3. Support of police and border authorities, especially during "Joint Action Weeks" by using smartphones equipped with "police applications". 4. Improve and intensify the cooperation between existing Helpdesks in Europe 5. Explore the possibility of Helpdesks to serve as well as "Airline Information Desk" to support and answer requests of Airlines about <ul style="list-style-type: none"> • Fulfilling their obligations based on Art. 26 No 1 (b) Schengen Implementing Treaty to take all the necessary measures to ensure that an alien carried by air or sea is in possession of the travel document required for entry into the territories of the Schengen States. • fulfilling their respective obligations based on annex 9 to the Convention on International Civil Aviation (ICAO) from 7th December 1944 	
<p>Key Performance Indicators (KPIs) and targets</p>	
<p>a) Number of JET action weeks or supports/establishments of permanent helpdesks (one permanent Helpdesk, 4 Action-Weeks)</p>	
<p>b) Number of checked documents and facial comparisons. (1200)</p>	
<p>c) Number of deployed document experts in JET action weeks. (24)</p>	
<p>d) Number of trained officers for facial comparisons to serve at the JET Help Desks. (20)</p>	
<p>e) Workshop about police apps and functionality of online Helpdesks (1)</p>	
<p>f) Conference about document verification and facial comparisons and options for Airlines to improve document verifications and the fulfillment of related further obligations by Helpdesks (1)</p>

Ref.: OA-6.3	Leader: DE (Police Forces)					
<p>Activity summary of the Operational Action</p> <p>The Police and Customs Cooperation Centres Network (informal PCCC Network) is coordinating and supporting the participation of PCCC in EMPACT activities, serves as a platform for exchange of best practice between PCCCs and national PCCC coordinators and support joint trainings activities of PCCC staff. The PCCC guidelines (EU 9105/11) as well as EU Codex for Police Cooperation (915/2022) serve as guiding line.</p> <p>PCCC support the fast exchange of information at internal and external borders, provide legal assistance for requesting investigation units, provide advice for investigations, contribute to set up regional crime analysis and risk assessments, support fast verification of documents and facial comparisons and serve as multilateral platform. They can also be used as a platform for operational meetings in internationally coordinated investigations, including OTF and JIT. Thereby the support off PCCC in the fight against illegal migration, especially secondary movements is one of the corner stones of their activities. Here they coordinate joint patrols and hot pursuit and urgent measures against smuggling of persons in concealments. Fast exchange of information via PCCC in cases of custody of facilitators is of utmost importance.</p> <p>PCCC are therefore an indispensable European horizontal mechanism in the fight against migrant smuggling by support of cross border investigations, including assistant services for implemented OTF and JIT, to enrich respective analysis and additionally serve as a platform for Frontex JO Focal Points Land and JO TERRA.</p> <p>SIENA cases initiated by Member States and Third Parties in PCCC account for 55% of all new cases in SIENA. Out of 59 PCCCs in Europe, 16 are using SIENA for their information exchange. Since the implementation of the SIENA web service and the SIENA web application in combination with the implementation of SIENA basic protection level, in 2024 an extensive roll out and start of use of SIENA in PCCC should take place. Approximately one half of all SIENA cases initiated by PCCC within the mandate of Europol concern the crime areas illegal immigration and document fraud.</p>

OA 8.1	
Activity summary of the Operational Action Joint Operational Office/TFWB	
<p>TASK FORCE WESTERN BALKANS (TFWB): The TFWB deals with migrant smuggling via the South-eastern European Route and its work is based on intelligence pictures provided by Europol and Frontex. The TFWB is available 24/7, detects emerging threats quickly and has a rapid response mechanism for early warning and emergencies. It provides Intelligence pictures on specific topics upon request. For 2024/2025 the Task Force intends to broaden its geographical focus to Türkiye and other relevant countries of origin and transit countries. The TFWB uses the JOINT OPERATIONAL OFFICE (JOO) Vienna as a multidisciplinary operational support platform. The JOO Vienna provides resources, including funding, for investigations against OCGs and High Value Targets. The JOO product catalogue includes meeting infrastructure, translation- and interpretation services and mobile phone extractions.</p> <p>Supported by IPA 2023, various actions will be financed and implemented with participating countries, especially with the 3rd countries of the Western Balkans.</p> <p>Furthermore the OA will be implemented in synergy with the ISF Projects SCOPE and SCOPE II.</p>	
Key Performance Indicators (KPIs) and targets	
a) Number of supporting services provided by JOO (10)	
b) Number of EMPACT Action Days (2) and JADs (2) supported.	
c) Early Warning and Emergency Response Mechanism used (6) and Early Warning Notifications provided (6)	
d) Number of non-EU partners (WB6) participating, leading or Co-leading an operational activities (JAD, EMPACT Action Day, CAD, etc.) (4)	
e) Number of operational activities with the involvement of Türkiye (2)	
Type of Operational Action	
<i>1-Operational, 2-Data collection/data exchange</i>	

Activities under the Operational Action and timing

Activity	Timing
1) The JOO actively supports and enhances mobile phone extractions, translation services and secondment of interpreters to the region.	Q1-Q4 2024/25
2) Enriching the European Intelligence picture in relation to poly-criminal groups, document fraud, visa- and residence permit abuse and financial investigations. Specific focus is put on the role of the Western Balkans as transit region.	Q1-Q4 2024/25
3) The TFWB regularly reports risks, new modi operandi and Early Warning Notifications emerging from its multidisciplinary cooperation.	Q1-Q4 2024/25
4) The Task Force strengthens relationships with relevant 3rd countries such as WB6 and Türkiye by using all relevant networks (e.g. EMLOS, Liaison Officer Network). Synergies towards European Initiatives are generated.	Q1-Q4 2024/25
5) Frontex has a significant portfolio of Joint Operations in the region. These operational activities undertaken by Frontex will support of the objectives of this OA including the implementation of JADs.	Q1-Q4 2024/25

OA 8.2	

Activity summary of the Operational Action

The Information Clearing House(ICH), a multi-agency / multi-stakeholder platform developed within the EMSC to enhance the intelligence picture on criminal networks and HVTs operating along migrant smuggling routes with a geographical focus on 3rd source and transit countries.

As part of the EMSC, the ICH, by pooling together information from EU Agencies and partners, including EUNAVFORMED – Operation IRINI, will facilitate the collection, analysis, development and dissemination of actionable intelligence products to competent law enforcement agencies with a focus on criminal networks and HVTs active in source and transit countries for migrant smuggling.

This will be achieved, in particular, through:

- Providing a common platform for EU Agencies, military, law enforcement and other stakeholders to exchange intelligence on criminal networks operating along the migration corridors;
- Pro-actively identifying relevant counterparts, including from source and transit countries to enhance the intelligence picture on organised migrant smuggling;
- Collect information from a wide range of stakeholders and produce actionable intelligence products aimed at facilitating the setting up of OTF;
- The ICH participants will, subject to the developments in the criminal landscape, jointly draft thematic / strategic intelligence products, especially on priority third countries for migrant smuggling in support of EU and MS political decision making processes by integrating the intelligence processed by Frontex, EUROPOL, Interpol and Eunavformed – Operation IRINI (subject to Mission's mandate) as well as data received from traditional and non-traditional partners (e.g. EEAS).

To proactively support the identification and disruption of OCGs involved in migrant smuggling in 3rd source and transit countries by providing actionable intelligence packages to competent law enforcement agencies.

Key Performance Indicators (KPIs) and targets

a) Number of intelligence products (24)
b) Number of HVTs identified (4)
c) Number of OTFs supported (2)

Type of Operational Action

Operational, Data collection/data exchange.

Activities under the Operational Action and timing

Activity	Timing
1) Pool intelligence from EU Agencies, EEAS, the EUNAVFORMED and other stakeholders.	Q1-Q4 2024/25
2) Analyse, enhance, draft and disseminate actionable intelligence products to competent law enforcement agencies.	Q1-Q4 2024/25
3) Support in identifying HVTs.	Q1-Q4 2024/25
4) Support the setting up of OTFs.	Q1-Q4 2024/25

Links to other Operational Action Plans (OAP)/priority**Horizontal activities / Joint Action Days (JAD)**

This OA is envisaged to also support JAD(s) organised with the participation of MS, Europol, Interpol, Frontex and EUNAVFOR MED as well as Third countries. They shall cover both, irregular migration and document fraud but shall also address trafficking of human beings and illicit goods.
