

The fly logs I send are very important because of this.

Mr. Masri sad that he was arrested on 31 Dec 2003 at Tabanovce border. Than he was kept for 23 days in hotel “Skopski merak” (near the USA embassy in Skopje).

Then, **on 23 January 2004** he was transported from Skopje airport to Baghdad, then to Kabul, Afghanistan.

**Fly logs confirm than Boeing 737-700 with serial number N313P owned by company Premier Executive services (registered in Massachusetts, USA), landed in Skopje. “Washington Post” made a article about this company and plane and proved that is shadow CIA company.**

Now, I’m trying to find listings of all passengers who left Macedonia from Skopje airport that day (23 Jan 2004). I’m trying to find listings of Macedonian airlines (MAT), Austrian airlines and Croatian airlines who operate on Skopje airport. This is important because, Mr.Masri has stamp from Macedonian police on his German passport who shows that he left Macedonia from Skopje airport.

**If Mr. Masri legally left Macedonia from airport HIS NAME MUST BE ON ONE OF THOSE LISTINGS.  
IF NOT, THAT IS ANOTHER CONFIRMATION ON HIS STORY.**

This is important because, Ljubomir Mihajlovski, minister of interior in Macedonian parliament sad that Masri left Macedonia on 23 Jan 2004, but **not from Skopje airport. He sad that Masri left Macedonia in border point Blace (on macedonian-kosovo border)**. He probably was wrongly informed (Mihajlovski was not minister when Masri was arrested).
