COMPARATIVE TABLE

Explanatory Note

1. This table compares each article of the Treaty on European Union (TEU) and of the Treaty establishing the European Community (TEC), renamed the Treaty on the Functioning of the European Union (TFEU), as those Treaties are amended by the Treaty of Lisbon, with the articles of the existing TEU and TEC.
2. The article numbers in the left-hand column correspond to the renumbering provided for in Article 5 of, and the Annex to, the Treaty of Lisbon and, consequently, to the numbering used in the consolidated version of the TEU and the TFEU published as Command Paper number 7310. After each such article number in the left-hand column there appears in brackets the article number used in the text of the Lisbon Treaty. Article numbers indicated by an asterisk are those to which the Protocol on the position of the United Kingdom and Ireland in respect of the Area of Freedom, Security and Justice apply.
3. The article numbers referred to in the right-hand column are those in the existing TEU and TEC.
4. The right-hand column uses the following terminology –

Unchanged – where a provision is unamended, or where the only change is one of nomenclature, for example European Union for European Community, or is a change in the name of an instrument

In substance the same as – where the wording has changed, or existing provisions have been combined, but the substance has not changed

Draws on – where a provision takes elements of existing provisions

New – where there is a wholly new provision

Unless otherwise stated, co-decision includes qualified majority voting (QMV) in the Council.

5. The same terminology is used in the comparative table of Protocols that follows this table. In that table, there are listed in the left-hand column all the Protocols that will be annexed to the TEU and the TFEU by virtue of the Treaty of Lisbon. The right-hand column compares each Protocol with its equivalent or existing Protocol, or indicates whether it is a wholly new Protocol.
