

# Britain: A Failed State

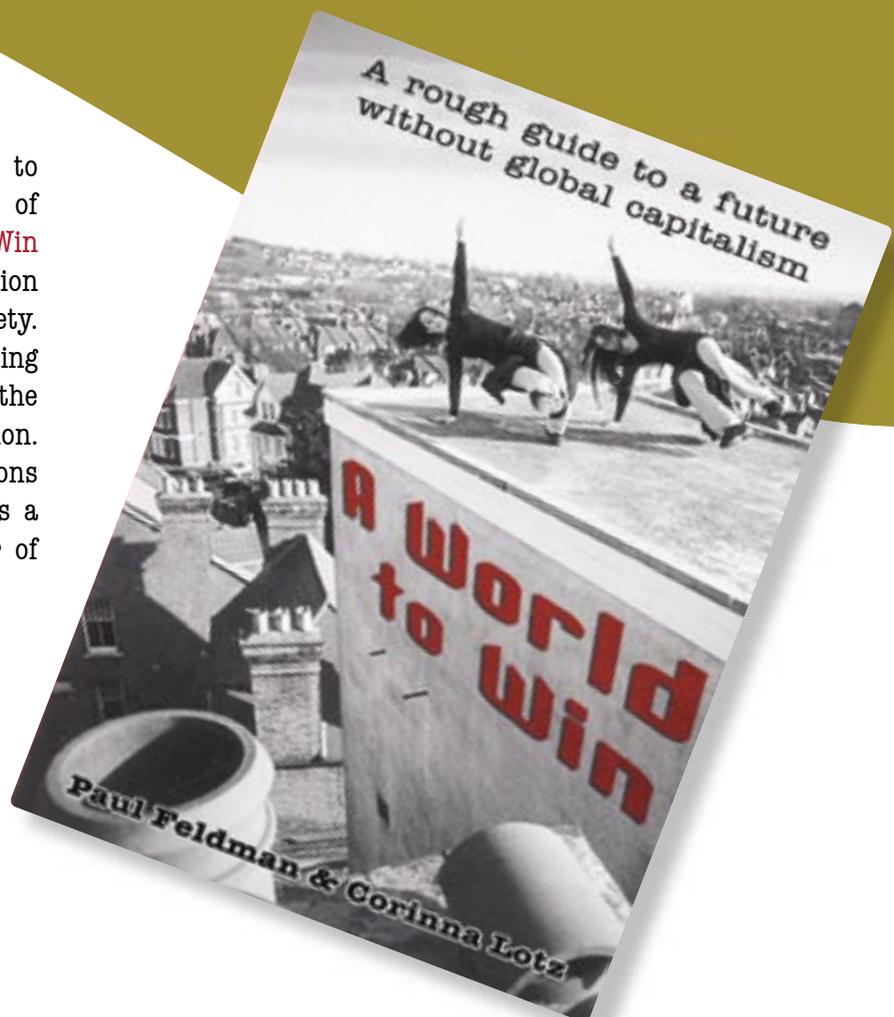

*With David Shayler, Paul Feldman & Corinna Lotz*

6pm Thursday February 24

Polis Seminars at London Metropolitan University,  
Staff Common Room, Ladbroke House, Highbury Grove.

Vital reading for those who want to liberate the planet from the grip of transnational capitalism. *A World to Win* shows how corporate-driven globalisation has penetrated every corner of society. It offers ideas and proposals for freeing economic and cultural resources from the grip of profit and capital accumulation. The book suggests not-for-profit solutions to the ecological crisis and proposes a restructuring of the state in favour of democratic participation and control.

**Special price for all those attending the seminar £7**
