

We have received a request under the Freedom of Information Act 2000 for the following:

The details of all the deaths in prison since 1st July 2006 until 15th April 2007. Could you include the names, ages, prison, and inquest verdict.

We released the following information on:

Please find this information below which should be read in conjunction with the following notes:

- Inquest verdicts often take some years to be completed. As a result the verdict column is mostly empty as the details requested are for relatively recent deaths. We cannot guarantee the accuracy of the inquest verdicts as we receive them via a third party and not directly from the Coroner's office
- Your request asks for details up to 15 April 2007 but for completeness the table lists those that have occurred up to 20 May, the date when this information was collated
- You ask for deaths in prison but as is convention the table includes all prisoner deaths in custody. Some may have died in hospital, in an ambulance while being escorted etc.
- Published deaths in custody figures include some that have occurred while prisoners had been released on temporary license (ROTL) for medical reasons
- The death classifications are provisional and subject to revision when new information comes to light.

Custody Phase	DOD	CLASSIFICATION	SURNAME	NAME	AGE	ESTAB	VERDICT
In custody	02/07/2006	Natural Causes	King	George	82	Holme House	Natural Causes
