Proposal for a

COUNCIL DECISION

on the signature of the Agreement between the European Union and the United States of America on the processing and transfer of Financial Messaging Data from the European Union to the United States for purposes of the Terrorist Finance Tracking Program

EXPLANATORY MEMORANDUM

- On 24 March 2010, the Commission adopted a Recommendation from the Commission to the Council to authorise the opening of the negotiations between the European Union and the United States of America to make available to the United States Treasury Department financial messaging data to prevent and combat terrorism and terrorism financing. On 11 May 2010, the Council adopted a Decision, together with negotiation directives, authorising the Commission to open negotiations on behalf of the European Union. On 10 May 2010, the European Parliament adopted a resolution on the Recommendation from the Commission to the Council to authorise the opening of the negotiations. The Agreement was initialled by the Parties on 11 June 2010. The Agreement has a duration of 5 years.
- The TFTP has generated significant intelligence which has benefitted Member States' fight against terrorism. The purpose of the Agreement is to ensure the continuation of the TFTP by making available to the United States Treasury Department financial messaging data stored in the EU for the purposes of the Terrorist Finance Tracking Program (TFTP). Since the new systems architecture of the Society for Worldwide Interbank Financial Telecommunication –SWIFT– (hereinafter referred to as the "designated provider") became operational on 1 January 2010, a significant volume of the data which were previously received by the U.S. Treasury Department under the TFTP, have not been available, undermining the benefits of the TFTP not least for the European Union. This Agreement is therefore necessary to enable the functioning of the TFTP without the limitations derived from the designated provider's new systems architecture and ensure that the TFTP can produce EU - and wider global – security benefits .

- The TFTP has existed since end 2001, pursuant to which the United States Department of the Treasury served administrative subpoenas on the U.S. arm of the designated provider for the transfer to the Treasury Department of limited sets of financial messaging data which transit over the designated provider's financial messaging network.
- In early 2007 the Presidency of the Council of the European Union and the European Commission engaged in discussions with the U.S. Treasury Department concerning the latter's processing of EU-originating personal data accessed under the TFTP. As a direct consequence of these discussions, the Treasury Department made a series of unilateral commitments to the European Union in June 2007 ("the TFTP Representations").¹ The TFTP Representations expressly limit the Treasury's processing of EU-originating personal data accessed pursuant to the TFTP. Limitations include, for example, that data will be processed exclusively for counter terrorism purposes, that data can only be accessed if there is a pre-existing terrorism nexus (i.e. no data mining) and an obligation to delete data after a certain period. In addition, the TFTP Representations state that the Commission

¹ The TFTP Representations, were acknowledged by the European Union by letter of 29 June 2007. The TFTP Representations and EU letter of acknowledgement were published in the Official Journal OJ C 166/18 of 20.7.2007 and OJ C 166/26 of 20.7.2007.

may appoint an "eminent European person" who will verify and report to the Commission on U.S. Treasury compliance with its commitments.

- In March 2008 the Commission announced that it had designated Judge Jean-Louis Bruguière as the TFTP "eminent European person" whose role would be to verify that the TFTP is implemented in accordance with the Representations. Judge Bruguière completed his first report in December 2008. The Report which was presented to the Justice and Home Affairs Council in February 2009 and to the European Parliament's Civil Liberties Committee in February and September 2009, finds that the U.S. Treasury Department complies with the commitments set out in the TFTP Representations. The Report further concludes that the TFTP has generated considerable value for Member State authorities' investigation of terrorism and that Member State authorities have been the main beneficiaries of TFTP-derived information². There is currently no equivalent of the TFTP in the European Union.
- On 1 January 2010, the new "systems architecture" of the designated provider became operational. Under this new systems architecture, the designated provider retains its existing EU-based and U.S. servers and brings into operation a new operating centre in Switzerland. The net effect of this new arrangement is that a significant volume of the data which were received by the U.S. Treasury Department under the TFTP is no longer stored in the United States. In order to ensure that the TFTP continues to produce EU - and wider global - security benefits, it is necessary to put in place an international agreement that allows for data needed for the TFTP to continue to be made available to the U.S. Treasury Department.
- The JHA Council of 30 November 2009 authorised the Presidency of the Council of the European Union to sign an interim agreement between the EU and the United States on the processing and transfer of Financial Messaging Data from the EU to the U.S. for purposes of the TFTP. The interim agreement, also signed on 30 November 2009, was to have a maximum duration of 9 months. However, on 11 February the European Parliament adopted its Resolution withholding consent for the TFTP Interim Agreement. A letter signed by the President of the Council was delivered to the US Secretary of State on 22 February 2010 stating that as a consequence of the Parliament's Resolution, the EU could not become a party to the Interim Agreement and terminating the provisional application of the Agreement. No data were ever transferred under the Interim Agreement.
- Following the termination of the provisional application of the Interim Agreement, data stored by the designated provider in its EU server remains inaccessible to the Treasury Department for the purposes of the TFTP. It is necessary to conclude this Agreement as rapidly as possible in order to make these data available to the United States Treasury Department for the purposes of preventing and combating terrorism and terrorist financing.

² The "eminent European person" Report of December 2008 contains various examples of where TFTP-derived intelligence has been shared with EU Member State services in connection with the investigation, prevention and prosecution of terrorism in the European Union. The Report further states that United States authorities have shared approximately 1400 TFTP-derived leads with Member States since 2002.

- In the longer-term, there is an ambition for the European Union to establish a system equivalent to the TFTP, which could enable the analysis of data held in the European Union to take place on the territory of the European Union. This possibility is expressly recognised within the Agreement, and the United States of America has committed to support this development in order to enable its successful establishment
- The Agreement aims at preventing and combating terrorism while respecting fundamental rights, and notably the protection of personal data. The Agreement between the European Union and the United States of America on the processing and transfer of Financial Messaging Data from the European Union to the United States for purposes of the Terrorist Finance Tracking Program aims to ensure full respect for fundamental rights enshrined in Article 6 (2), of the Treaty on European Union, in particular the right to privacy with regard to the processing of personal data as stipulated in Article 16 of the Treaty on the Functioning of the European Union and for the principles of proportionality and necessity regarding the right to respect for private and family life and the protection of personal data as set out in Articles 7 and 8 of the Charter of Fundamental Rights of the European Union.
- The Agreement has secured significant safeguards for those whose data is processed by the designated provider within the European Union if it is transferred to the Treasury Department under this Agreement. Most notably, the Agreement provides for transparency of the use of data; access, blocking and rectification of data; as well as administrative redress on a non-discriminatory basis and the availability of a process for seeking judicial redress under U.S. law, regardless of nationality or place of residence. Where leads resulting from the data are shared with third parties, the Member State concerned will be consulted as appropriate. The Agreement offers a strengthened process for the European Union to review its functioning, and to monitor the independent oversight of the TFTP.
- Article 218(2) of the Treaty on the Functioning of the European Union states that the Council shall authorise the signing of international agreements.

- The Commission therefore proposes to the Council to adopt a decision signing the Agreement between the European Union and the United States of America on the processing and transfer of Financial Messaging Data from the European Union to the United States for purposes of the Terrorist Finance Tracking Program.

(b) relevant information obtained through the TFTP is provided to law enforcement, public security, or counter terrorism authorities of Member States, or Europol or Eurojust, for the purpose of the prevention, investigation, detection, or prosecution of terrorism or terrorist financing.

(d) A person or entity aiding, abetting, or attempting acts described in subparagraphs (a), (b), or (c).

ARTICLE 3

Ensuring Provision of Data by Designated Providers

The Parties, jointly and individually, shall ensure, in accordance with this Agreement and in particular Article 4, that entities jointly designated by the Parties under this Agreement as providers of international financial payment messaging services ("Designated Providers")

provide to the U.S. Treasury Department requested financial payment messaging and related data which are necessary for the purpose of the prevention, investigation, detection, or prosecution of terrorism or terrorist financing ("Provided Data"). The Designated Providers shall be identified in the Annex to this Agreement and may be updated, as necessary, by exchange of diplomatic notes. Any amendments to the Annex shall be duly published in the Official Journal of the European Union.

ARTICLE 4

U.S. Requests to Obtain Data from Designated Providers

1. For the purposes of this Agreement, the U.S. Treasury Department shall serve production orders ("Requests"), under authority of U.S. law, upon a Designated Provider present in the territory of the United States in order to obtain data necessary for the purpose of the prevention, investigation, detection, or prosecution of terrorism or terrorist financing that are stored in the territory of the European Union.
2. The Request (together with any supplemental documents) shall:
 - (a) identify as clearly as possible the data, including the specific categories of data requested, that are necessary for the purpose of the prevention, investigation, detection, or prosecution of terrorism or terrorist financing;
 - (b) clearly substantiate the necessity of the data;
 - (c) be tailored as narrowly as possible in order to minimize the amount of data requested, taking due account of past and current terrorism risk analyses focused on message types and geography as well as perceived terrorism threats and vulnerabilities, geographic, threat, and vulnerability analyses; and
 - (d) not seek any data relating to the Single Euro Payments Area.
3. Upon service of the Request on the Designated Provider, the U.S. Treasury Department shall simultaneously provide a copy of the Request, with any supplemental documents, to Europol.
4. Upon receipt of the copy, Europol shall verify as a matter of urgency whether the Request complies with the requirements of paragraph 2. Europol shall notify the Designated Provider that it has verified that the Request complies with the requirements of paragraph 2.
5. For purposes of this Agreement, once Europol has confirmed that the Request complies with the requirements of paragraph 2, the Request shall have binding legal effect as provided under U.S. law, within the European Union as well as the United States. The Designated Provider is thereby authorized and required to provide the data to the U.S. Treasury Department.
6. The Designated Provider shall thereupon provide the data (i.e., on a "push basis") directly to the U.S. Treasury Department. The Designated Provider shall keep a detailed log of all data transmitted to the U.S. Treasury Department for the purposes of this Agreement.
7. Once the data have been provided pursuant to these procedures, the Designated Provider shall be deemed to have complied with this Agreement and with all other applicable legal requirements in the European Union related to the transfer of such data from the European Union to the United States.
8. Designated Providers shall have all administrative and judicial redress available under the laws of the United States to recipients of U.S. Treasury Department Requests.

9. The Parties shall jointly coordinate with regard to the technical modalities necessary to support the Europol verification process.

ARTICLE 5

Safeguards Applicable to the Processing of Provided Data

General Obligations

1. The U.S. Treasury Department shall ensure that Provided Data are processed in accordance with the provisions of this Agreement. The U.S. Treasury Department shall ensure the protection of personal data by means of the following safeguards, which shall be applied without discrimination, in particular on the basis of nationality or country of residence.

2. Provided Data shall be processed exclusively for the prevention, investigation, detection, or prosecution of terrorism or its financing;

3. The TFTP does not and shall not involve data mining or any other type of algorithmic or automated profiling or computer filtering.

Data Security and Integrity

4. To prevent unauthorized access to or disclosure or loss of the data or any unauthorised form of processing:

- (a) Provided Data shall be held in a secure physical environment, stored separately from any other data, and maintained with high-level systems and physical intrusion controls;
- (b) Provided Data shall not be interconnected with any other database;
- (c) Access to Provided Data shall be limited to analysts investigating terrorism or its financing and to persons involved in the technical support, management, and oversight of the TFTP;
- (d) Provided Data shall not be subject to any manipulation, alteration, or addition; and
- (e) No copies of Provided Data shall be made, other than for disaster recovery back-up purposes.

Necessary and Proportionate Processing of Data

5. All searches of Provided Data shall be based upon pre-existing information or evidence which demonstrates a reason to believe that the subject of the search has a nexus to terrorism or its financing.

6. Each individual TFTP search of Provided Data shall be narrowly tailored, shall demonstrate a reason to believe that the subject of the search has a nexus to terrorism or its financing, and shall be logged, including such nexus to terrorism or its financing required to initiate the search.

7. Provided Data may include identifying information about the originator and/or recipient of a transaction, including name, account number, address, and national identification number. The Parties recognize the special sensitivity of personal data revealing racial or ethnic origin, political opinions, or religious or other beliefs, trade union membership, or health and sexual life (“sensitive data”). In the exceptional circumstance that extracted data were to include sensitive data, the U.S. Treasury Department shall protect such data in accordance with the safeguards and security measures set forth in this Agreement and with full respect and taking due account of their special sensitivity.

ARTICLE 6

Retention and Deletion of Data

1. During the term of this Agreement, the U.S. Treasury Department shall undertake an ongoing and at least annual evaluation to identify non-extracted data that are no longer necessary to combat terrorism or its financing. Where such data are identified, the U.S. Treasury Department shall permanently delete them as soon as technologically feasible.
2. If it transpires that financial payment messaging data were transmitted which were not requested, the U.S. Treasury Department shall promptly and permanently delete such data and shall inform the relevant Designated Provider.
3. Subject to any earlier deletion of data resulting from paragraphs 1, 2, or 5, all non-extracted data received prior to 20 July 2007 shall be deleted not later than 20 July 2012.
4. Subject to any earlier deletion of data resulting from paragraphs 1, 2, or 5, all non-extracted data received on or after 20 July 2007 shall be deleted not later than five (5) years from receipt.
5. During the term of this Agreement, the U.S. Treasury Department shall undertake an ongoing and at least annual evaluation to assess the data retention periods specified in paragraphs 3 and 4 to ensure that they continue to be no longer than necessary to combat terrorism or its financing. Where any such retention periods are determined to be longer than necessary to combat terrorism or its financing, the U.S. Treasury Department shall reduce such retention periods, as appropriate.
6. Not later than three years from the date of entry into force of this Agreement, the European Commission and the U.S. Treasury Department shall prepare a joint report regarding the value of TFTP Provided Data, with particular emphasis on the value of data retained for multiple years and relevant information obtained from the joint review conducted pursuant to Article 13. The Parties shall jointly determine the modalities of this report.
7. Information extracted from Provided Data, including information shared under Article 7, shall be retained for no longer than necessary for specific investigations or prosecutions for which they are used.

ARTICLE 7

Onward Transfer

Onward transfer of information extracted from the Provided Data shall be limited pursuant to the following safeguards:

- (a) Only information extracted as a result of an individualized search as described in this Agreement, in particular Article 5, shall be shared;
- (b) Such information shall be shared only with law enforcement, public security, or counter terrorism authorities in the United States, Member States, or third countries, or with Europol or Eurojust, or other appropriate international bodies, within the remit of their respective mandates;
- (c) Such information shall be shared for lead purposes only and for the exclusive purpose of the investigation, detection, prevention, or prosecution of terrorism or its financing;
- (d) Where the U.S. Treasury Department is aware that such information involves a citizen or resident of a Member State, any sharing of the information with the authorities of a third country shall be subject to the prior consent of competent authorities of the concerned Member State or pursuant to existing protocols on such information sharing between the U.S.

Treasury Department and that Member State, except where the sharing of the data is essential for the prevention of an immediate and serious threat to public security of a Party to this Agreement, a Member State, or a third country. In the latter case the competent authorities of the concerned Member State shall be informed of the matter at the earliest opportunity;

(e) In sharing such information, the U.S. Treasury Department shall request that the information shall be deleted by the recipient authority as soon as it is no longer necessary for the purpose for which it was shared; and

(f) Each onward transfer shall be duly logged.

ARTICLE 8

Adequacy

Subject to ongoing compliance with the commitments on privacy and protection of personal data set out in this Agreement, the U.S. Treasury Department is deemed to ensure an adequate level of data protection for the processing of financial payment messaging and related data transferred from the European Union to the United States for purposes of this Agreement.

ARTICLE 9

Spontaneous Provision of Information

1. The U.S. Treasury Department shall ensure the availability, as soon as practicable and in the most expedient manner, to law enforcement, public security, or counter terrorism authorities of concerned Member States, and, as appropriate, to Europol and Eurojust, within the remit of their respective mandates, of information obtained through the TFTP that may contribute to the investigation, prevention, detection, or prosecution by the European Union of terrorism or its financing. Any follow-on information that may contribute to the investigation, prevention, detection, or prosecution by the United States of terrorism or its financing shall be conveyed back to the United States on a reciprocal basis and in a reciprocal manner.

2. In order to facilitate the efficient exchange of information, Europol may designate a liaison officer to the U.S. Treasury Department. The modalities of the liaison officer's status and tasks shall be decided jointly by the Parties.

ARTICLE 10

EU Requests for TFTP Searches

Where a law enforcement, public security, or counter terrorism authority of a Member State, or Europol or Eurojust, determines that there is reason to believe that a person or entity has a nexus to terrorism or its financing as defined in Articles 1 to 4 of Council Framework Decision 2002/475/JHA, as amended by Council Framework Decision 2008/919/JHA and Directive 2005/60/EC, such authority may request a search for relevant information obtained through the TFTP. The U.S. Treasury Department shall promptly conduct a search in accordance with Article 5 and provide relevant information in response to such requests.

ARTICLE 11

Cooperation with Future Equivalent EU System

1. During the course of this Agreement, the European Commission will carry out a study into the possible introduction of an equivalent EU system allowing for a more targeted transfer of data.

2. If, following this study, the European Union decides to establish an EU system, the United States shall cooperate and provide assistance and advice to contribute to the effective establishment of such a system.

3. Since the establishment of an EU system could substantially change the context of this Agreement, if the European Union decides to establish such a system, the Parties should consult to determine whether the Agreement would need to be adjusted accordingly. In that regard, U.S. and EU authorities shall cooperate to ensure the complementariness and efficiencies of the U.S. and EU systems in a manner that further enhances the security of citizens of the United States, the European Union, and elsewhere. In the spirit of this cooperation, the Parties shall actively pursue, on the basis of reciprocity and appropriate safeguards, the cooperation of any relevant international financial payment messaging service providers which are based in their respective territories for the purposes of ensuring the continued and effective viability of the U.S. and EU systems.

ARTICLE 12

Monitoring of Safeguards and Controls

1. Compliance with the strict counter terrorism purpose limitation and the other safeguards set out in Articles 5 and 6 shall be subject to independent monitoring and oversight. Such oversight, subject to appropriate security clearances, shall include the authority to review in real time and retrospectively all searches made of the Provided Data, the authority to query such searches and, as appropriate, to request additional justification of the terrorism nexus. In particular, independent overseers shall have the authority to block any or all searches if it appears that one or more searches have been made in breach of Article 5.

2. The independent oversight shall also include the ongoing monitoring of compliance with and reporting on all safeguards set out in Articles 5 and 6.

3. The oversight described in paragraphs 1 and 2 shall be subject to ongoing monitoring, including of the independence of the oversight described in paragraphs 1 and 2, by an independent person appointed by the European Commission, with the modalities of the monitoring to be jointly coordinated by the Parties. The Inspector General of the U.S. Treasury Department will ensure that the independent oversight described in paragraphs 1 and 2 is undertaken pursuant to applicable audit standards.

ARTICLE 13

Joint Review

1. At the request of one of the Parties and at any event after a period of six (6) months from the entry into force of this Agreement, the Parties shall jointly review the safeguards, controls and reciprocity provisions set out in this Agreement. The review shall be conducted thereafter on a regular basis, with additional reviews scheduled as necessary.
