Subject: Draft Regulation of the European Parliament and of the Council establishing the European Border Surveillance System (EUROSUR)

In the context of ongoing negotiations with the European Parliament on the above-mentioned proposal, delegations will find in the Annex the four-column table with Presidency drafting suggestions and comments on the different issues discussed so far with the European Parliament.

The Presidency has met the EP rapporteur and the shadows on 30 January, 26 February 2013, 27 March 2013 and 22 April 2013. The final trilogue with the EP is scheduled to take place on 29 May 2013.

The Presidency has proceeded in its contacts with the European Parliament on the basis of the outcome of discussions at previous JHA Counsellors' meetings, most recently on 16 April 2013.

Compared to the previous text set out in the fourth column in doc.8086/13, the Presidency would like to highlight the following issues and ask delegations to address the following issues at the JHA Counsellors meeting on 30 April 2013:

1. Scope (Article 2(2))

At the trilogue on 22 April 2013, the EP accepted the compromise proposal put forward by the Commission at the last JHA Counsellors' meeting, as modified following the suggestion by FR. The EP also agreed to drop their inclusion of a definition of 'interception' in paragraph 3 (fc).

Delegations are asked to confirm whether this compromise is acceptable to them.

2. Recitals (6a), (16) and (17)

A number of Member States expressed concerns in relation to the wording of Recital (6a), which referred to mixed migratory flows. Also, the issue of the division of competence in Recital (16) and the possibility of moving the reference to the Schengen Borders Code to Recital (17) were discussed at the trilogue on 22 April.

The EP accepted the compromise proposals put forward by the Presidency in relation to these three recitals. Delegations are asked to confirm that they can accept them.

3. References to '...third country nationals and stateless persons in need of international protection...' (Article 1 and 2 and Recital 1)

The EP agreed to finish the sentences in all three of the above areas after the word '...migrants...'
Delegations are asked to confirm that this wording is acceptable to them.

4. Reaction capability (Article 15, Paragraph 1 points a, b and c)

The EP agreed with the PRES compromise proposal in Article 15(1) (a). However, they insisted on keeping the reference to “...such as the temporary allocation of additional personnel and resources” at the end of paragraph (1) (b). As a compromise, PRES suggests the following wording below:

(b) where a medium impact level is attributed to an external border section, the national authorities with a responsibility for external border surveillance shall, in addition to measures taken under point (a), ensure that appropriate surveillance measures are being taken at this border section. When those measures are taken, the national coordination centre shall be notified accordingly. The national coordination centre shall coordinate any support given at national level [which may include the temporary allocation of additional personnel and resources];

In relation to paragraph (1)(c), the EP could accept the PRES compromise wording, subject to some changes in the word order as set out below:

(c) where a high impact level is attributed to an external border section, the Member State concerned shall, in addition to measures taken under point (b), ensure, through the national coordination centre, that the national authorities operating at this border section are given the necessary support and that reinforced surveillance measures are taken. That Member State may request the Agency for support subject to the conditions for initiating joint operations or rapid interventions as laid down in Regulation (EC) No 2007/2004.

Regarding paragraph 4, the text has been amended as set out below to clarify that the obligations of the Agency will depend on the Frontex Regulation, while the ways in which they may support Member States are set out in Article 15(4)

“...the Agency, when responding to that request, may support that Member State in particular by:”

Delegations are asked to agree to the wording set out in the 4th column in relation to Articles 15(1) (a), (b) and (c) and 15(4).

5. Definition of ‘incidents’ and references in the text

At the last JHA Counsellors’ meeting on 22 April, a number of delegations raised concerns about the impact that the definition of ‘incident’ proposed by the EP would have on the reaction capability element of the Eurosur Regulation; in particular on Article 14.

Therefore the Presidency proposes reverting to the Council text on Article 14(1) (a), (b) and (c). This makes it clear that the incidents referred to in Article 14 are only those related to illegal immigration or cross-border crime and therefore the proposed inclusion of a definition of ‘incident’ in Article 3(fb) does not have any impact on reaction capability.

As a result of the above compromise, the definition of ‘incident’ would remain as it is in the fourth column of Article 3(fb) and also the compromise text on Article 9(3) (a) (EP Amendment 54) would be amended as follows:

“(a) a sub-layer on illegal border crossings, including information available to the national co-ordination centre on incidents related to risk for the lives of migrants.”

Delegations are asked to agree to keep the Council text on Article 14 (1) (a), (b) and (c), in exchange for agreeing to include the definition of ‘incident’ in Article 3(fb) and amending Article 9(3) (a) as set out above.

6. Co-operation with third countries, Article 18(1)

As regards paragraph 1, the EP proposed dropping the requirement to notify agreements to them, in exchange for mandatory prior consultation with the Commission of the compliance of such agreements with the Eurosur Regulation.

Delegations are asked to accept the above compromise, possibly with a clarification to ensure that it is only the parts of such agreements which are relevant to Eurosur which should be the subject of prior consultation with the Commission.

Concerning EP AM 100 on the exchange of personal data with third countries, the EP has insisted at several trilogues that they could not accept to change their AM 100. In the meantime, the Presidency has stressed that the amendment must be narrowed and now suggests a new compromise text, which limits the restriction on sharing personal data with third countries to the information contained in regional networks, thereby ensuring any bilateral sharing of data can continue:

1b. any exchange of personal data with third countries using the regional networks referred to in paragraph 1 shall be prohibited.

The Presidency considers as a possible trade off to agree to the EP request on the compulsory consultation to the Commission in paragraph 1 and in return the EP should give up on the notification of EP and Council of the bilateral or multilateral agreements and to allow to a certain extent the exchange of personal data with third countries.

7. Handbook, Article 19, (AM 105)

The EP has insisted that the Handbook is made public, while the Presidency and Commission have opposed this. As a compromise, it is proposed to add the following paragraph after Article 19(1):

(2) The European Commission may decide, after consultation of the Member States and the Agency, to classify parts of the Handbook as EU Restricted

8. Reference to Schengen Evaluation Mechanism (Article 10(6)(ba), EP AM 70)

The Presidency has proposed a further compromise solution to replace the amended text in EP Amendment 70 entirely and for the new text below to be placed in Article 10(2) in a new letter (baa). The rationale for this is that, even after the EP suggested removing the reference to the Schengen Evaluation mechanism in Article 10(6) (ba), the remaining text did not make sense where it was.

(new baa) “the European Commission, providing strategic information on border control;”

9. References to regional networks (Article 15 paragraph 3, Article 17a/18a(1) and Article 18(1))

To ensure consistency throughout the text, the above Articles have been amended to include references to “regional networks”. On a related note, we discussed whether the Article on co-operation with Ireland and the UK should come before the Article on co-operation with third countries. It is proposed that the Article should come before the Article on co-operation with third countries, to reflect the fact that Ireland and the UK are Member States of the EU.

10. Fundamental rights (Article 20 paragraph 1)

The only remaining issue in relation to the fundamental rights package is Article 20 paragraph 1. The EP insists on including the reference to “including the principle of non-refoulement” at the end of the sentence, or else having a reference here to another article in the Regulation which refers to the principle of non-refoulement. Delegations are asked whether they can accept this point in the context of agreeing an overall deal.

For the purpose of making further progress at the next trilogue, the Presidency invites delegations to agree with the Presidency's suggestions as set out in the fourth column of the four-column table set out in the Annex.

	<p><i>(1b) Migration and the crossing of external borders by third-country nationals should not per se be considered to be a threat to public policy or internal security. <p>(4) This Regulation forms part of the European model of integrated border management of the external borders and of the Internal Security Strategy of the European Union. ¹ As regards Croatia the Presidency in consultation with the CLS and the Commission suggests the following:

- 1) If the accession of Croatia takes place before the adoption of the Eurosur regulation, then Croatia can be listed among the Member States in Article 21(3).
- 2) However, if the accession of Croatia will not take place before the adoption of the Eurosur regulation, a recital should be introduced which would be along the lines:
"As regards Croatia, this Regulation constitutes a provision of the Schengen acquis within the meaning of article 4 (1) of the Act of accession. Given that Croatia is located at the southern external border of the EU, Croatia should be included among the Member States referred to in article 21(3)."
In addition, based on the Treaty of accession, the Commission would propose a technical adaptation of Article 21 (3) to include Croatia among the Member States in Article 21 (3).
