No. prev. doc.:	9368/1/16 REV 1
Subject:	Overview of the information exchange environment in the justice and home affairs area

In the context of the implementation of the Roadmap to enhance information exchange and information management including interoperability solutions in the Justice and Home Affairs area (9368/1/16 REV 1) and the ongoing work in the High Level Expert group on information systems and interoperability, the General Secretariat of the Council has made an attempt to map the existing (and some future) information exchange instruments, networks and databases in the JHA field.

The sole aim of this map is to try to provide delegations with an overall picture of the information exchange environment in the context of the ongoing discussions about enhancing information exchange and ensuring the interoperability of the existing systems.

Delegations are most welcome to provide comments and make suggestions in order to improve this map so that it reflects the state of play as precisely as possible **by 28 February 2017** to dapix@europa.consilium.eu.
