6. For the purpose of the distribution of resources under paragraph 1(c), ‘external sea borders’ shall mean the outer limit of the territorial sea of the Member States as defined in accordance with Articles 4 to 16 of the United Nations Convention on the Law of the Sea. However, in cases where long range operations on a regular basis are required in order to prevent illegal immigration or illegal entry, this shall be the outer limit of high threat areas. The definition of ‘external maritime borders’ in this regard shall be determined by taking into account the operational data over the past two years as provided by the Member States concerned. This definition shall be used exclusively for the purpose of this Regulation.

7. For the purposes of the initial allocation of funding, the assessment of the workload shall be based on the latest average figures covering the preceding 36 months available on the date of the applicability of this Regulation. For the purposes of the mid-term review, the assessment of the workload shall be based on the latest average figures covering the preceding 36 months available at the time of the mid-term review in 2024. The assessment of the workload shall be based on the following factors:

(a) at external land borders and external sea borders:
   (1) 70 % for the number of crossings of the external border at authorised border crossing points;
   (2) 30% for the number of third-country nationals refused entry at the external border.

(b) at airports:
   (1) 70 % for the number of crossings of the external border at authorised border crossing points;
   (2) 30% for the number of third-country nationals refused entry at the external border.

(c) at consular offices:
   the number of visa applications for short stays or airport transit.

8. The reference figures for the number of consular offices as referred to in paragraph 5(a) shall be calculated according to the information contained in Annex 28 of Commission Decision C(2010) 1620 of 19 March 2010 establishing the Handbook for the processing of visa applications and the modifications of issued visas.

   Where Member States have not provided the statistics concerned, the latest available data for those Member States shall be used. Where there is no data available for a Member State, the reference figure shall be zero.

9. The reference figures for the workload referred to:
   (a) in paragraph 7(a)(1) and 7(b)(1) shall be the latest statistics provided by Member States in accordance with Union law;
   (b) in paragraph 7(a)(2) and 7(b)(2) shall be the latest statistics produced by the Commission (Eurostat) on the basis of data provided by Member States in accordance with Union law;
(c) in paragraph 7(c) shall be the latest visa statistics published by the Commission in accordance with Article 46 of the Visa Code\(^3\).

d) Where Member States have not provided the statistics concerned, the latest available data for those Member States shall be used. Where there is no data available for a Member State, the reference figure shall be zero.

10. The European Border and Coast Guard Agency shall provide the Commission with a report on the breakdown of resources as regards external land borders, external sea borders and airports, as referred to in paragraph 1(c).

11. For the purposes of the initial allocation, the report referred to in paragraph 10 shall identify the average level of threat of each border section based on the latest average figures covering the preceding 36 months on the date of the applicability of this Regulation. For the purposes of the mid-term review, the report referred to in paragraph 10 shall identify the average level of threat of each border section based on the latest average figures covering the preceding 36 months available at the time of the mid-term review in 2024. It shall determine the following specific weighting factors per section applying the threat levels as defined in Regulation (EU) No 1052/2013:

(a) factor 0.5 for low threat;
(b) factor 3 for medium threat;
(c) factor 5 for high threat;
