

**REGULATION (EU) No 514/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
of 16 April 2014**

laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 78(2), Article 79(2) and (4), Article 82(1), Article 84 and Article 87(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee ⁽¹⁾,

Having regard to the opinion of the Committee of the Regions ⁽²⁾,

Acting in accordance with the ordinary legislative procedure ⁽³⁾,

Whereas:

- (1) The Union's home affairs policy is to create an area of freedom, security and justice: an area without internal borders where people may enter, move, live and work freely, confident that their rights are fully respected and their security assured, bearing in mind common challenges such as the development of a comprehensive Union immigration policy to enhance the competitiveness and social cohesion of the Union, the creation of a Common European Asylum System, the prevention of threats of serious and organised crime, and the fight against illegal immigration, human trafficking, cybercrime and terrorism.
- (2) It is necessary to adopt an integrated approach to questions arising from the pressure of migration and asylum applications and regarding the management of the external borders of the Union, ensuring full respect for international and human rights law, including as regards actions implemented in third countries, showing solidarity amongst all Member States and demonstrating an awareness of the need to respect national responsibilities in the process of ensuring a clear definition of tasks.
- (3) Union funding to support the development of the area of freedom, security and justice should bring added value for the Union and constitute a tangible sign of the solidarity and responsibility-sharing which are indispensable in responding to the common challenges.
- (4) The existence of a common framework should ensure the necessary coherence, simplification and uniform implementation of that funding across the policy areas concerned.
- (5) The spending of funds in that area should be coordinated in order to assure complementarity, efficiency and visibility, as well as to achieve budgetary synergies.

⁽¹⁾ OJ C 299, 4.10.2012, p. 108.

⁽²⁾ OJ C 277, 13.9.2012, p. 23.

⁽³⁾ Position of the European Parliament of 13 March 2014 (not yet published in the Official Journal) and decision of the Council of 14 April 2014.

- (6) A common framework should lay down the principles of assistance and identify the responsibilities of the Member States and the Commission in ensuring the application of those principles, including the prevention and detection of irregularities and fraud.
- (7) Such Union funding would be more efficient and better targeted if co-financing of eligible actions were based on strategic multiannual programming, drawn up by each Member State in dialogue with the Commission.
- (8) Measures in and in relation to third countries supported through the Specific Regulations as defined in this Regulation ('Specific Regulations') should be taken in synergy and coherence with other actions outside the Union supported through Union external assistance instruments, both geographic and thematic. In particular, in implementing such actions, full coherence should be sought with the principles and general objectives of the Union's external action and foreign policy related to the country or region in question. Those measures should not be intended to support actions that are directly oriented towards development and they should complement, when appropriate, the financial assistance provided through external aid instruments. The principle of policy coherence for development, as set out in paragraph 35 of the European consensus on Development, should be respected. It is also important to ensure that the implementation of emergency assistance is consistent with, and, where relevant, complementary to the Union humanitarian policy and respects humanitarian principles as set out in the European Consensus on Humanitarian Aid.
- (9) External action should be consistent and coherent, as set out in Article 18(4) of the Treaty on European Union (TEU).
- (10) Prior to the preparation of multiannual programmes as a means of achieving the objectives of such Union funding, Member States and the Commission should engage in a policy dialogue and thereby establish a coherent strategy for each individual Member State. Following the completion of the policy dialogue, each Member State should submit to the Commission a national programme describing how it aims to achieve the objectives of the relevant Specific Regulation for the period 2014-20. The Commission should examine whether the national programme is consistent with those objectives and with the outcome of the policy dialogue. Moreover, the Commission should examine whether the distribution of Union funding between the objectives complies with the minimum percentage set per objective in the relevant Specific Regulation. It should be possible for Member States to depart from those minimum percentages, in which case they should state the reasons for the deviation in their national programme. In the event that the reasons given by the Member State concerned were not deemed adequate, the Commission might not approve the national programme. The Commission should regularly inform the European Parliament of the outcome of the policy dialogues, of the full programming process including the preparation of national programmes, covering also compliance with the minimum percentage set per objective in the relevant Specific Regulations as defined in this Regulation, and of the implementation of the national programmes.
- (11) The strategy should be subject to a mid-term review, to ensure appropriate funding in the period 2018-20.
- (12) Member States should establish, in a manner consistent with the principle of proportionality and the need to minimise administrative burden, a partnership with the authorities and bodies concerned to develop and implement their national programmes throughout the entire multiannual period. Member States should ensure that there is no conflict of interest among the partners at the different stages of the programming cycle. Each Member State should set up a committee to monitor the national programme and assist it in reviewing the implementation and the progress made in achieving the programme objectives. Each Member State should be responsible for establishing the practical arrangements for setting up the monitoring committee.
- (13) Eligibility of expenditure under the national programmes should be determined by national law, subject to common principles set out in this Regulation. The starting and closing dates for the eligibility of expenditure should be defined so as to provide for uniform and equitable rules applying to the national programmes.
- (14) Technical assistance should enable the Member States to support the implementation of their national programmes and assist beneficiaries in complying with their obligations and Union law. Where appropriate, technical assistance could cover the costs incurred by the competent authorities in third countries.

- (15) To ensure an adequate framework for providing rapidly emergency assistance, this Regulation should allow support for actions the expenditure of which was incurred before the application for such assistance was made, but not before 1 January 2014, in accordance with the provision in Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council⁽¹⁾, which allows such flexibility in duly substantiated exceptional cases. The support may constitute 100 % of the eligible expenditure in duly justified cases where this is essential for the action to be carried out, particularly where the beneficiary is an international or non-governmental organisation. Actions supported with emergency assistance should arise directly from the emergency situation and should not replace long-term investments by Member States.
- (16) The decisions taken relevant to the contribution from the Union budget should be properly documented to maintain an adequate audit trail.
- (17) The financial interests of the Union should be protected through proportionate measures throughout the expenditure cycle, including the prevention, detection and investigation of irregularities, the recovery of funds lost, wrongly paid or incorrectly used and, where appropriate, administrative and financial penalties in accordance with Regulation (EU, Euratom) No 966/2012.
- (18) In the context of the protection of the financial interests of the Union, the on-the-spot checks and audits carried out by the Member States, the Commission, the Court of Auditors and the European Anti-Fraud Office established by Commission Decision 1999/352/EC, ECSC, Euratom⁽²⁾ ("OLAF") can be announced as well as unannounced, in accordance with the applicable law.
- (19) The new structure of the funding in the field of home affairs aims to simplify the applicable rules and to reduce the administrative burden for the beneficiaries. Nevertheless, the control mechanism should remain efficient, and therefore it is important to recall the applicable rules on the protection of the financial interests of the Union, providing for on-the-spot checks and audits which may be announced as well as unannounced.
- (20) Member States should adopt adequate measures to guarantee the proper functioning of the management and control system and the quality of implementation of their national programmes. To this end, it is necessary to establish the general principles and necessary functions which these systems should fulfil.
- (21) The obligations on the Member States as regards management and control systems and the prevention, detection and correction of irregularities and infringements of Union law should be specified in order to guarantee the efficient and correct implementation of their national programmes.
- (22) In accordance with the principles of subsidiarity and proportionality, Member States should have the primary responsibility, through their management and control systems, for the implementation and control of national programmes. The support provided under the Specific Regulations should be implemented in close cooperation between the Commission and the Member States in accordance with the principle of subsidiarity.
- (23) Member States should make full use of the knowledge, expertise and experience gained by public and/or private bodies in implementing earlier funds in the field of home affairs.
- (24) Only Responsible Authorities designated by the Member States offer reasonable assurance that the necessary controls have been carried out before granting support from the Union budget to beneficiaries. It should therefore be explicitly laid down that only expenditure effected by designated Responsible Authorities can be reimbursed from the Union budget.
- (25) The powers and responsibilities of the Commission to verify the effective functioning of the management and control systems and to require Member State action should be laid down.

⁽¹⁾ Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

⁽²⁾ Commission Decision 1999/352/EC, ECSC, Euratom of 28 April 1999 establishing the European Anti-fraud Office (OLAF) (OJ L 136, 31.5.1999, p. 20).

- (26) Union budget commitments should be effected annually. In order to ensure effective programme management, it is necessary to lay down common rules for the payment of the annual balance and the final balance.
- (27) The pre-financing payment at the start of programmes ensures that Member States have the means to provide support to beneficiaries in the implementation of the programme once the programme is approved. Therefore, provisions should be made for initial pre-financing amounts. Initial pre-financing should be totally cleared at closure of the programme. The Responsible Authorities should ensure that beneficiaries receive the full amount due promptly.
- (28) In addition, annual pre-financing should be provided to ensure that Member States have sufficient means to implement their national programmes. Annual pre-financing should be cleared each year with the payment of the annual balance.
- (29) The triennial revision of Regulation (EU, Euratom) No 966/2012 introduces changes in the shared management method which have to be taken into account.
- (30) With a view to strengthening accountability for expenditure co-financed by the Union budget in any given year, an appropriate framework should be created for the annual clearance of accounts. Under such framework, the Responsible Authority should submit to the Commission, in respect of a national programme, the documents referred to in the provisions on shared management with Member States of Regulation (EU, Euratom) No 966/2012.
- (31) To support the assurance underlying the annual clearance of accounts across the Union, common provisions should be laid down on the nature and level of the controls to be carried out by Member States.
- (32) In order to ensure the sound financial management of Union resources, it may be necessary for the Commission to make financial corrections. To ensure legal certainty for the Member States, it is important to define the circumstances under which breaches of applicable Union or national law can lead to financial corrections by the Commission. In order to ensure that any financial corrections which the Commission may impose on Member States are related to the protection of the Union's financial interests, they should be confined to cases where the breach of Union or national law directly or indirectly concerns the eligibility, regularity, management or control of actions and the corresponding expenditure. To ensure proportionality, it is important that the Commission considers the nature and the gravity of the breach in deciding the amount of financial correction. In this regard, it is appropriate to set out the criteria for applying financial corrections by the Commission and the procedure that may lead to a decision on the financial correction.
- (33) In order to establish the financial relationship between the Responsible Authorities and the Union budget, the Commission should clear the accounts of those authorities annually. The decision on the clearance of accounts should cover the completeness, the accuracy and veracity of the accounts but not the conformity of the expenditure with Union law.
- (34) As the Commission is responsible for the proper application of Union law under Article 17 TEU, it should decide whether the expenditure incurred by the Member States complies with Union law. Member States should be given the right to justify their decisions to make payments. In order to give Member States legal and financial assurances as to expenditure effected in the past, a maximum period should be set for the Commission to decide which financial consequences should follow from non-compliance.
- (35) It is important to ensure sound financial management and effective implementation, while also ensuring transparency, legal certainty, accessibility of funding and equal treatment of beneficiaries.
- (36) With a view to simplifying the use of funding and reducing the risk of error, while providing for differentiation where needed to reflect the specificities of policy, it is appropriate to define the forms of support and the harmonised conditions for the eligibility of expenditure grants, including simplified costs options. In accordance with the principle of subsidiarity, Member States should adopt national rules on the eligibility of expenditure.

- (37) In order to encourage financial discipline, it is appropriate to define the arrangements for decommitment of any part of the budget commitment in a national programme, in particular where an amount may be excluded from the decommitment, notably when delays in the implementation result from legal proceedings or an administrative appeal having suspensive effect or from reasons of force majeure.
- (38) To ensure the appropriate application of the general rules on decommitment, the rules established should detail how the deadlines for decommitment are established and how the respective amounts are calculated.
- (39) It is important to bring the achievements of Union funding to the attention of the general public. Citizens have a right to know how the Union's financial resources are spent. The responsibility to ensure that the appropriate information is communicated to the public should lie with the Commission, the Responsible Authorities and the beneficiaries. To ensure more efficiency in communication to the public at large and stronger synergies between the communication activities undertaken at the initiative of the Commission, the budget allocated to communication actions under this Union funding should also contribute to covering corporate communication of the political priorities of the Union, provided that those are related to the general objectives of Union funding in the field of home affairs.
- (40) For the purpose of ensuring a wide dissemination of information about Union funding in the field of home affairs, and to inform potential beneficiaries about funding opportunities, detailed rules relating to information and communication measures, as well as certain technical characteristics of such measures, should be defined on the basis of this Regulation and each Member State should, at least, establish a website or website portal with the necessary information. Member States should undertake more direct forms of communication campaigns in order to properly inform the potential beneficiaries by, inter alia, organising regular public events, so-called information days and training sessions.
- (41) The effectiveness of actions supported also depends on their evaluation and the dissemination of their results. The responsibilities of the Member States and the Commission in this regard and the arrangements to ensure the reliability of evaluation and the quality of the related information should be formalised.
- (42) In order to amend provisions of this Regulation on the common principles on the eligibility of expenditure, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union (TFEU) should be delegated to the Commission. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.
- (43) In the application of this Regulation, including the preparation of delegated acts, the Commission should consult experts from all Member States.
- (44) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council⁽¹⁾.
- (45) The examination procedure should be used for implementing acts that lay down common obligations on Member States, in particular on the provision of information to the Commission, and the advisory procedure should be used for the adoption of implementing acts relating to the model forms for the provision of information to the Commission, given their purely technical nature.
- (46) Since the objective of this Regulation, namely to lay down general provisions for the implementation of the Specific Regulations, cannot be sufficiently achieved by the Member States but can rather, by reason of the scale and effects of the action, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 TEU. In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.

⁽¹⁾ Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).

- (47) Insofar as this Regulation lays down general rules necessary for enabling the implementation of Specific Regulations which provide for its applicability to these Specific Regulations and which constitute acts building upon the Schengen *acquis* in relation to countries to which these Specific Regulations are applicable on the basis of relevant Protocols annexed to the TEU and to the TFEU or on the basis of the relevant Agreements, this Regulation should be applied together with these Specific Regulations. To that extent, this implies that this Regulation can establish a link with and can have a direct impact on the provisions of the Specific Regulations developing the Schengen *acquis*, thus affecting the latter's legal framework.
- (48) In accordance with Article 3 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU, those Member States have notified their wish to take part in the adoption and application of this Regulation.
- (49) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the TEU and to the TFEU, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application.
- (50) It is appropriate to align the period of application of this Regulation with that of Council Regulation (EU, Euratom) No 1311/2013 ⁽¹⁾. Therefore, this Regulation should apply as from 1 January 2014,

HAVE ADOPTED THIS REGULATION:

General principles

1. The Specific Regulations shall provide support, through national programmes, Union actions and emergency assistance, which complements national, regional and local intervention, pursuing the objectives of the Union and resulting in added value for the Union.
2. The Commission and the Member States shall ensure that the support provided under the Specific Regulations and by the Member States is consistent with the relevant activities, policies and priorities of the Union and is complementary to other Union instruments, while taking into account the specific context of each Member State.
3. The support provided under the Specific Regulations shall be implemented in close cooperation between the Commission and the Member States.
4. In accordance with their respective responsibilities, the Commission and the Member States, together with the European External Action Service ('EEAS') as regards actions in and in relation to third countries, shall ensure coordination between this Regulation and the Specific Regulations, and with other relevant Union policies, strategies and instruments, including those in the framework of the Union's external action.
5. The Commission and the Member States, together with the EEAS where appropriate, shall ensure that actions in and in relation to third countries are carried out in synergy and in coherence with other actions outside the Union supported through Union instruments. They shall, in particular, ensure that those actions:
 - (a) are coherent with the Union's external policy, respect the principle of policy coherence for development and are consistent with the strategic programming documents for the region or country in question;
 - (b) focus on non-development-oriented measures;
 - (c) serve the interests of the Union's internal policies and are consistent with activities undertaken inside the Union.

Article 4

Compliance with Union and national law

Actions financed by the Specific Regulations shall comply with applicable Union and national law.

Article 5

Protection of the financial interests of the Union

1. The Commission shall take appropriate measures ensuring that, when actions financed under this Regulation and the Specific Regulations are implemented, the financial interests of the Union are protected by the application of preventive measures against fraud, corruption and any other illegal activities, by effective checks, by the recovery of the amounts wrongly paid if irregularities are detected, and, where appropriate, by effective, proportionate and dissuasive administrative and financial penalties.

2. Member States shall prevent, detect and correct irregularities and shall recover amounts unduly paid together with any interest on late payments. They shall notify those to the Commission and shall keep it informed of any significant progress in the related administrative and legal proceedings.

2. Within the limits of the available resources, the emergency assistance may amount to 100 % of the eligible expenditure.
3. Emergency assistance may consist of assistance in Member States and in third countries in accordance with the objectives and actions defined in the Specific Regulations.

5. Emergency assistance may take the form of grants awarded directly to Union agencies.

Article 8

 - (k) actions related to audit.
3. The measures and activities referred to in paragraph 1 may also concern the preceding and subsequent financial frameworks.

CHAPTER IV

NATIONAL PROGRAMMES

SECTION 1

Programming and Implementation framework

Article 10

Programming

The objectives of the Specific Regulations shall be pursued within the framework of the multiannual programming for the period 2014-20, subject to a mid-term review in accordance with Article 15.

*Article 11***Subsidiary and proportionate intervention**

1. Member States and their competent authorities as specified in Article 25 shall be responsible for implementing programmes and carrying out their tasks under this Regulation and the Specific Regulations at the appropriate level, in accordance with the institutional, legal and financial framework of the Member State concerned and subject to compliance with this Regulation and the Specific Regulations.
2. Arrangements for the implementation and use of the support provided under the Specific Regulations, and in particular the financial and administrative resources required in relation to reporting, evaluation, management and control, shall take into account the principle of proportionality having regard to the level of support allocated, thereby reducing the administrative burden and facilitating efficient implementation.

*Article 12***Partnership**

1. Each Member State shall, in accordance with its national rules and practices and subject to any applicable security requirements, organise a partnership with relevant authorities and bodies to perform the role set out in paragraph 3. The partnership shall be drawn from relevant public authorities at national, regional and local level, where applicable. It shall also, where deemed appropriate, include relevant international organisations, non-governmental organisations and social partners.
2. The partnership shall be conducted in full compliance with the respective institutional, legal and financial jurisdiction of each partner category.

3. After the conclusion of the policy dialogues, the Commission shall inform the European Parliament of the overall outcome.
4. If deemed appropriate by a Member State and by the Commission, the policy dialogue may be repeated after the mid-term review referred to in Article 15, in order to reassess the needs of that Member State and the priorities of the Union.

4. By way of derogation from paragraph 3, expenditure paid in 2014 shall also be eligible where it has been paid by the Responsible Authority before its formal designation in accordance with Article 26, provided that the management and controls systems applied before the formal designation are essentially the same as the ones in force after the formal designation of the Responsible Authority.
5. Expenditure included in payment requests from the beneficiary to the Responsible Authority shall be supported by invoices or accounting documents of equivalent probative value, except for forms of support under points (b), (c) and (d) of Article 18(1). 6. Where the implementation of a project gives rise to indirect costs, they may be calculated as a flat rate in one of the following ways:
- (a) a flat rate of up to 25 % of eligible direct costs, provided that the rate is calculated on the basis of a fair, equitable and verifiable calculation method or a method applied under schemes for grants funded entirely by the Member State concerned for a similar type of project and beneficiary;

8. In addition to the methods laid down in paragraph 4, where the contribution from the Union budget does not exceed 100 000 EUR, the amounts referred to in points (b), (c) and (d) of paragraph 1 may be established on a case-by-case basis by reference to a draft budget agreed *ex ante* by the Responsible Authority.
9. Depreciation costs may be considered as eligible where the following conditions are met:

- (b) compliance with the principle of separation of functions between and within such authorities;

- (c) procedures for ensuring the correctness and regularity of expenditure declared;
- (d) computerised systems for accounting, for the storage and transmission of financial data and data on indicators, for monitoring and for reporting;

- (g) systems and procedures to ensure an adequate audit trail;
- (h) the prevention, detection and correction of irregularities, including fraud, and the recovery of amounts unduly paid, together with any interest on late payments.

Article 22

Responsibilities under shared management

In accordance with the principle of shared management, Member States and the Commission shall be responsible for the management and control of national programmes in accordance with their respective responsibilities laid down in this Regulation and the Specific Regulations.

Article 23

Responsibilities of beneficiaries

Beneficiaries shall fully cooperate with the Commission and competent authorities when they carry out their functions and tasks in relation to this Regulation and the Specific Regulations.

Article 24

Responsibilities of Member States

1. Member States shall fulfil the management, control and audit obligations and assume the resulting responsibilities, which are laid down in the rules on shared management set out in Regulation (EU, Euratom) No 966/2012 and this Regulation.
2. Member States shall ensure that their management and control systems for national programmes are set up in accordance with this Regulation and that those systems function effectively.
3. Member States shall allocate adequate resources for each competent authority to carry out their functions throughout the programming period.
4. Member States shall set up transparent rules and procedures for the selection and implementation of projects in accordance with this Regulation and the Specific Regulations.
5. All official exchanges of information between the Member State and the Commission shall be carried out using an electronic data exchange system. The Commission shall establish, by way of implementing acts, the terms and conditions with which that electronic data exchange system is to comply. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 59(3).

Article 25

Competent authorities

1. For the purposes of this Regulation and the Specific Regulations, the competent authorities are:
 - (a) a Responsible Authority: a public sector body of the Member State concerned, which is the designated body within the meaning of Article 59(3) of Regulation (EU, Euratom) No 966/2012 and which shall be solely responsible for the proper management and control of the national programme and shall handle all communication with the Commission;

- (b) an Audit Authority: a national public authority or body, which is functionally independent of the Responsible Authority and which shall be responsible for issuing annually the opinion referred to in the second subparagraph of Article 59(5) of Regulation (EU, Euratom) No 966/2012;
 - (c) where appropriate, one or more Delegated Authorities: any public or private body which carries out certain tasks of the responsible authority under the responsibility of the Responsible Authority.
2. Each Member State shall lay down rules governing the relations between the authorities referred to in paragraph 1 and their relations with the Commission.

Article 26

Designation of Responsible Authorities

1. Member States shall notify the Commission of the formal designation, in accordance with Article 59(3) of Regulation (EU, Euratom) No 966/2012, at ministerial level of the Responsible Authorities in Member States responsible for the management and control of expenditure under this Regulation, as soon as possible after the approval of the national programme.
2. The designation referred to in paragraph 1 shall be made subject to the body complying with the designation criteria on internal environment, control activities, information and communication, and monitoring laid down in or on the basis of this Regulation.
3. The designation of a Responsible Authority shall be based on an opinion of an audit body, which may be the Audit Authority, that assesses the Responsible Authority's compliance with the designation criteria. That body may be the autonomous public institution responsible for monitoring, evaluating and auditing the administration. The audit body shall function independently of the Responsible Authority and shall carry out its work in accordance with internationally accepted audit standards. In accordance with Article 59(3) of Regulation (EU, Euratom) No 966/2012, Member States may base their decision on designation on whether the management and control systems are essentially the same as those in place for the previous period and whether they have functioned effectively. If the existing audit and control results show that the designated bodies no longer comply with the designation criteria, Member States shall take the necessary measures to ensure that deficiencies in the implementation of the tasks of those bodies are remedied, including by ending the designation.
4. To ensure the sound operation of this system, the Commission shall be empowered to adopt delegated acts in accordance with Article 58 concerning:
- (a) minimum conditions for the designation of the Responsible Authorities with regard to the internal environment, control activities, information and communication, and monitoring, as well as rules on the procedure for making and ending the designation;
 - (b) rules relating to supervision and the procedure for reviewing the designation of Responsible Authorities;
 - (c) the obligations of the Responsible Authorities as regards public intervention, as well as on the content of their management and control responsibilities.

Article 27

General principles on controls by Responsible Authorities

1. Responsible Authorities shall carry out a systematic administrative control and shall supplement such a control by on-the-spot controls, including, where appropriate, unannounced on-the-spot controls of the expenditure related to the final payment requests from the beneficiaries that are declared in the annual accounts with a view to obtaining a sufficient level of assurance.
2. As regards on-the-spot controls, the Responsible Authority shall draw its control sample from the entire population of beneficiaries comprising, where appropriate, a random part and a risk-based part, in order to obtain a representative error rate and a minimum confidence level, while targeting also the highest errors.
3. The Responsible Authority shall draw up a control report on each on-the-spot control.

4. Where problems detected appear to be systemic in nature and may therefore entail a risk to other projects, the Responsible Authority shall ensure that a further examination is carried out, including additional controls where necessary, to establish the scale of such problems and whether the error rate is above the acceptable level. The necessary preventive and corrective measures shall be taken by the Responsible Authority and shall be communicated to the Commission in the summary referred to in point (b) of the first subparagraph of Article 59(5) of Regulation (EU, Euratom) No 966/2012.

5. The Commission shall adopt, by way of implementing acts, the necessary rules aiming at achieving a uniform application of this Article. Those rules may in particular relate to the following:

- (a) the rules concerning administrative and on-the-spot controls including unannounced on-the-spot controls, to be conducted by the Responsible Authority with regard to compliance with obligations, commitments and eligibility rules resulting from the application of this Regulation and the Specific Regulations, including the rules relating to the period of time for which supporting documents should be kept;
- (b) the rules on the minimum level of on-the-spot controls necessary for an effective management of the risks, as well as the conditions under which Member States have to increase such controls, or may reduce them where the management and control systems function properly and the error rates are at an acceptable level;
- (c) the rules and methods on the reporting of the controls and verification carried out and their results.

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 59(3).

Article 28

Payment to beneficiaries

Responsible Authorities shall ensure that the beneficiaries receive the total amount of the public support as quickly as possible and in full. No amount shall be deducted or withheld and no specific charge or other charge with equivalent effect shall be levied that would reduce those amounts for the beneficiaries.

Article 29

Functions of the audit authority

1. To support the opinion given in accordance with Article 59 of Regulation (EU, Euratom) No 966/2012, the audit authority shall ensure that audits are carried out on the management and control systems, and on an appropriate sample of the expenditure included in the annual accounts. The Commission shall be empowered to adopt delegated acts in accordance with Article 58 of this Regulation on the status of the Audit Authorities and the conditions which their audits shall fulfil.

2. Where audits are carried out by a body other than the Audit Authority, the Audit Authority shall ensure that any such body has the necessary specialist expertise and functional independence.

3. The Audit Authority shall ensure that audit work meets internationally accepted auditing standards.

Article 30

Cooperation with audit authorities

1. The Commission shall cooperate with audit authorities to coordinate their respective audit plans and methods and shall as soon as possible exchange the results of audits carried out on management and control systems in order to make the best possible and proportionate use of control resources, and to avoid unjustified duplication of work.

2. The Commission and the audit authorities shall meet on a regular basis to exchange views on issues relating to the improvement of the management and control systems.

Article 31

Controls and audits by the Commission

1. The Commission shall rely on available information, including the designation procedure, the request for payment of the annual balance as referred to in Article 44, annual implementation reports and audits carried out by national and Union bodies, to assess whether the Member States have set up management and control systems that comply with this Regulation, and whether those systems function effectively during the implementation of national programmes.

2. Without prejudice to audits carried out by Member States, Commission officials or authorised Commission representatives may carry out on-the-spot audits or controls subject to giving at least 12 working days notice to the competent national authority, except in urgent cases. The Commission shall respect the principle of proportionality by taking into account the need to avoid unjustified duplication of audits or controls carried out by Member States, the level of risk to the Union budget and the need to minimise the administrative burden on beneficiaries. Officials or authorised representatives of the Member State may take part in such audits or controls.

3. The scope of the audits or controls may include, in particular:

- (a) the verification of the effective functioning of management and control systems in a national programme or a part thereof;
- (b) the compliance of administrative practices with Union rules;
- (c) the existence of the required supporting documents and their correlation with the actions supported under the national programmes;
- (d) the terms on which the actions have been undertaken and controlled;
- (e) an assessment of the sound financial management of actions and/or the national programme.

4. Commission officials or authorised Commission representatives, duly empowered to carry out on-the-spot audits or controls, shall have access to all necessary records, documents and metadata, irrespective of the medium in which they are stored, relating to projects and technical assistance or to management and control systems. Member States shall provide copies of such records, documents and metadata to the Commission upon request. The powers set out in this paragraph shall not affect the application of national provisions which reserve certain acts for agents specifically designated by national legislation. Commission officials and authorised representatives shall not take part, *inter alia*, in home visits or the formal questioning of persons within the framework of national legislation. However, they shall have access to the information thus obtained without prejudice to the competences of national courts and in full respect for the fundamental rights of the legal subjects concerned.

5. At the request of the Commission and with the agreement of the Member State concerned, additional controls or inquiries into the actions covered by this Regulation shall be undertaken by the competent bodies of that Member State. Commission agents or persons delegated by the Commission may take part in such controls. In order to improve controls, the Commission may, with the agreement of the Member States concerned, request the assistance of the authorities of those Member States for certain controls or inquiries.

6. The Commission may require a Member State to take the actions necessary to ensure the effective functioning of its management and control systems or the correctness of expenditure in accordance with the applicable rules.

4. Depending on budget availability, the final balance shall be paid not later than three months after the date of clearance of accounts of the final financial year, or one month after the date of acceptance of the final implementation report, whichever date is later. The amounts still committed after the balance is paid shall, without prejudice to Article 52, be decommitted by the Commission within a period of six months.

*Article 41***Interruption of the payment deadline**

1. The payment deadline following a request for payment may be interrupted by the authorising officer by delegation within the meaning of Regulation (EU, Euratom) No 966/2012 for a maximum period of six months, when at least one of the following conditions is met:

- (a) further to information provided by a national or Union audit body, there is clear evidence to suggest a significant deficiency in the functioning of the management and control system;

The Member State concerned may agree to an extension of the interruption period for an additional three months.

2. The authorising officer by delegation shall limit the interruption to the part of the expenditure covered by the payment request affected by the elements referred to in the first subparagraph of paragraph 1, unless it is not possible to identify the part of expenditure affected. The authorising officer by delegation shall inform the Member State and the Responsible Authority immediately in writing of the reason for the interruption and shall ask them to remedy the situation. The interruption shall be ended by the authorising officer by delegation as soon as the necessary measures have been taken.

- (b) expenditure in the annual accounts is linked to an irregularity having serious financial consequences which has not been corrected; or
- (c) the Member State has failed to take the necessary action to remedy the situation giving rise to an interruption under Article 41.

2. The Commission may decide to suspend all or part of an annual balance after having given the Member State concerned the opportunity to present its observations.

3. The Commission shall end the suspension of all or part of an annual balance where the Member State concerned has taken the necessary measures to enable the suspension to be lifted.

*Article 43***Use of the euro**

Those amounts shall be converted into euro using the monthly accounting exchange rate of the Commission in the month during which the expenditure was registered in the accounts of the Responsible Authority of the national programme concerned. The exchange rate shall be published electronically by the Commission each month.

3. In cases where the euro becomes the currency of a Member State, the conversion procedure set out in paragraph 2 shall continue to apply to all expenditure recorded in the accounts by the Responsible Authority before the date of entry into force of the fixed conversion rate between the national currency and the euro.

SECTION 4

Clearance of accounts and financial corrections

Article 44

Request for payment of the annual balance

1. By 15 February of the year following the financial year, each Member State shall submit to the Commission the documents and information required under Article 59(5) of Regulation (EU, Euratom) No 966/2012. The documents submitted shall serve as the request for payment of the annual balance. The deadline of 15 February may be exceptionally extended by the Commission to 1 March at the latest upon communication from the Member State concerned. Member States may, at the appropriate level, publish that information.

2. The Commission may ask a Member State to provide further information for the purpose of the annual clearance of the accounts. If a Member State does not provide the requested information by the deadline for its submission set by the Commission, the Commission may take its decision on the clearance of the accounts on the basis of the information in its possession.

3. The Commission shall adopt, by way of implementing acts, the models according to which the documents referred to in paragraph 1 shall be drawn up. Those implementing acts shall be adopted in accordance with the advisory procedure referred to in Article 59(2).

Article 45

Annual clearance of accounts

1. By 31 May of the year following the financial year, the Commission shall decide on the clearance of the annual accounts for each national programme. The clearance decision shall cover the completeness, accuracy and veracity of the annual accounts submitted and shall be without prejudice to any subsequent financial corrections.

2. The Commission shall, by way of implementing acts, lay down the arrangements for the implementation of the annual clearance of accounts procedure, as regards the measures to be taken in connection with the adoption of the decision and its implementation, including on the exchange of information between the Commission and the Member States and the deadlines to be respected. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 59(3).

Article 46

Financial corrections by Member States

Member States shall make the financial corrections required in connection with individual or systemic irregularities detected under the national programmes. Financial corrections shall consist of cancelling all or part of the contribution from the Union budget concerned. The Member States shall take into account the nature and gravity of the irregularities and the financial loss to the Union budget and shall apply a proportionate correction. Amounts cancelled and amounts recovered, as well as the interest thereon, shall be reallocated to the national programme concerned, excluding the amounts resulting from irregularities identified by the Court of Auditors and the Commission services, including OLAF. After the closure of the national programme, the Member State concerned shall refund the sums recovered to the Union budget.

Article 47

Conformity clearance and financial corrections by the Commission

1. The Commission shall make financial corrections by cancelling all or part of the Union contribution to a national programme and effecting recovery from the Member State concerned in order to exclude from Union financing any expenditure which is in breach of applicable law, including in relation to deficiencies in the management and control systems of Member States which have been detected by the Commission or the Court of Auditors.

2. A breach of applicable law shall lead to a financial correction only in relation to expenditure which has been declared to the Commission and where one of the following conditions is met:

- (a) the breach has affected the selection of a project under the national programme, or, in cases where, due to the nature of the breach, it is not possible to establish that impact, there is a substantiated risk that the breach has had such an effect;
- (b) the breach has affected the amount of expenditure declared for reimbursement by the Union budget, or in cases where, due to the nature of the breach, it is not possible to quantify its financial impact, but there is a substantiated risk that the breach has had such an effect.

3. When deciding on a financial correction under paragraph 1, the Commission shall respect the principle of proportionality by taking account of the nature and gravity of the breach of applicable law and its financial implications for the Union budget.

4. Before the adoption of any decision to refuse financing, the findings from the Commission and the Member State's replies shall be notified in writing, following which the two parties shall attempt to reach agreement on the action to be taken.

5. Financing may not be refused for:

- (a) expenditure which is incurred by the Responsible Authority more than 36 months before the Commission notifies the Member State in writing of its findings;
- (b) expenditure on multiannual actions within the scope of the national programmes, where the final obligation on the beneficiary occurs more than 36 months before the Commission notifies the Member State in writing of its findings;
- (c) expenditure on actions in national programmes, other than those referred to in point (b), for which the payment or, as the case may be, the final payment, by the Responsible Authority, is made more than 36 months before the Commission notifies the Member State in writing of its findings.

6. The Commission shall, by way of implementing acts, lay down the arrangements for the implementation of the conformity clearance as regards the measures to be taken in connection with the adoption of the decision and its implementation, including the information exchange between the Commission and the Member States and the deadlines to be respected. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 59(3).

Article 48

Obligations of Member States

A financial correction by the Commission shall not prejudice the Member State's obligation to pursue recoveries under point (h) of Article 21 of this Regulation and to recover State aid within the meaning of Article 107(1) TFEU and under Article 14 of Council Regulation (EC) No 659/1999 ⁽¹⁾.

Article 49

Repayment

1. Any repayment due to be made to the Union budget shall be made before the due date indicated in the order for recovery drawn up in accordance with Article 80 of Regulation (EU, Euratom) No 966/2012. That due date shall be the last day of the second month following the issuing of the order.

2. Any delay in making repayment shall give rise to interest on account of late payment, starting on the due date and ending on the date of actual payment. The rate of such interest shall be one-and-a-half percentage points above the rate applied by the European Central Bank in its main refinancing operations on the first working day of the month in which the due date falls.

⁽¹⁾ Council Regulation (EC) No 659/1999 of 22 March 1999 laying down detailed rules for the application of Article 108 of the Treaty on the Functioning of the European Union (OJ L 83, 27.3.1999, p. 1).

SECTION 5

Decommitment

Article 50

Principles

1. National programmes shall be submitted to a decommitment procedure established on the basis that amounts linked to a commitment which are not covered by the initial and annual pre-financing referred to in Article 35 and a request for payment in accordance with Article 44 by 31 December of the second year following that of the budget commitment shall be decommitted. For the purpose of the decommitment, the Commission shall calculate the amount by adding one sixth of the annual budget commitment related to the 2014 total amount contribution to each of the 2015-20 budget commitments.
2. By way of derogation from paragraph 1, the deadlines for decommitment shall not apply to the annual budget commitment related to the 2014 total annual contribution.
3. If the first annual budget commitment is related to the 2015 total annual contribution, by way of derogation from paragraph 1 the deadlines for decommitment shall not apply to the annual budget commitment related to the total annual contribution of 2015. In such cases, the Commission shall calculate the amount under paragraph 1 by adding one fifth of the annual budget commitment related to the 2015 total amount contribution to each of the 2016-20 budget commitments.
4. The commitment related to the last year of the period shall be decommitted in accordance with the rules followed for the closure of the programmes.
5. Any commitment still open on the latest date for expenditure to be eligible, as referred to in Article 17(3), and for which a payment request has not been made by the Responsible Authority within six months after that date shall be automatically decommitted.

Article 51

Exceptions to decommitment

1. The amount concerned by decommitment shall be reduced by the amounts that the Responsible Authority has not been able to declare to the Commission because of:
 - (a) actions suspended by legal proceedings or by an administrative appeal having suspensive effect; or
 - (b) reasons of force majeure seriously affecting the implementation of all or part of the national programme. Responsible Authorities claiming force majeure shall demonstrate the direct consequences of the force majeure on the implementation of all or part of the national programme.

The reduction may be requested once if the suspension or force majeure lasted up to one year. If the suspension or force majeure lasted more than one year, the reduction may be requested several times, corresponding to the duration of the force majeure or the number of years between the date of the legal or administrative decision suspending the implementation of the action and the date of the final legal or administrative decision.

2. The Member State shall send to the Commission information on the exceptions referred to in paragraph 1 by 31 January, in order for the amount to be declared by the end of the preceding year.
3. The part of the budget commitments for which a payment request has been made, but payment of which has been reduced or suspended by the Commission on 31 December of year $N + 2$, shall be disregarded in calculating the automatic decommitment.

Article 52

Procedure

1. Whenever there is a risk of application of decommitment under Article 50, the Commission shall inform the Member States as soon as possible.

2. On the basis of the information in its possession on 31 January, the Commission shall inform the Responsible Authority of the amount of the decommitment resulting from the information in its possession.
3. The Member State concerned shall have two months to agree to the amount to be decommitted or to submit its observations.
4. The Commission shall carry out the automatic decommitment no later than nine months after the last time-limit resulting from the application of paragraphs 1 to 3.
5. In the event of automatic decommitment, the contribution from the Union budget to the national programme concerned shall be reduced, for the year in question, by the amount automatically decommitted. The Union contribution in the financing plan will be reduced pro rata, unless the Member State produces a revised financing plan.

6. The Commission shall inform the Member State concerned of its observations on the annual implementation report within two months from the date of receipt of the annual implementation report. If the Commission does not provide observations within this deadline, the reports shall be deemed to be accepted.

7. The Commission may make observations on issues in the Responsible Authority's annual implementation report which affect the implementation of the national programme.
