Maintainability and Configuration Management

- ████████████████████████████████

- Maintainability of █████ = maintainability of software.

- <u>How do we maintain ████████</u>
  ➤Apply industry best practices and standards

Discussion

- What practical problems do you have in managing the lifecycle of █████?
- What criteria do you use to assess performance of a ██████
- What kinds of solutions are you using to maintain ████████ Standard solutions? Or solutions created for n platform?
- Are you aware of any standards that we could use here?
