Delegations will find attached a draft action plan for Afghanistan prepared by the Commission Services.
Draft Action Plan: AFGHANISTAN

Overall EU Objectives

- The EU is committed to remain engaged in Afghanistan and to help promote the country’s path to democracy and self-reliance.
- The EU will continue to support an inclusive, Afghan-owned and Afghan-led peace process, with the prospect of negotiated political solution to the conflict.
- The EU will continue to address the root causes of instability and conflict and protracted displacement, taking into account the potential impact of conflict and post-peace scenarios on people’s migration choices.
- The EU will continue to work on strengthening engagement with Afghanistan on all aspects of migration and forced displacement in a comprehensive way acknowledging that the security situation in the country is a key consideration for our engagement on migration.
- Most scenarios for the future of Afghanistan foresee the likelihood of increased population movements within the country, in the region, and towards Europe. The EU and international partners should plan for all possible outcomes and work with a long-term vision.
- The EU's support to Afghanistan is conditional upon the preservation and further strengthening of the democratic, human rights, and governance achievements of the last 20 years.

Goals for managing migration and addressing forced displacement

- The EU aims to ensure continued financial, technical, and capacity-building assistance to support Afghanistan in addressing migration management and forced displacement issues, strengthen cooperation on migration governance, countering irregular migration, fighting migrant smuggling and trafficking in human beings, enhancing border management and ensuring post-arrival assistance and sustainable reintegration to returnees from the EU Member States, countries along the migratory route, and from the region.
- The EU is committed to working with international partners on durable solutions for Afghan refugees and addressing the needs of communities in countries where large numbers of them are hosted, protection of internally displaced persons (IDPs), and the predictable, safe, orderly and dignified return and reintegration of Afghan nationals from neighbouring countries, including Iran, Pakistan and Turkey.
- As chair of the Support Platform of the Solution Strategy for Afghan refugees (SSAR) in 2021, the EU will seek to strengthen the international response to the Afghan refugee situation and to stimulate further political, financial and material commitments.
- The EU will continue to provide humanitarian assistance to those most affected by conflict, including emergency healthcare, shelter, food assistance, access to clean water and sanitation facilities, education in emergencies, and protection support targeting women and children.
- The EU will continue to help address root causes of irregular migration and forced displacement, including through support to livelihoods, access to health and education and democratisation.
- The EU aims to continue cooperation on return and readmission with Afghanistan, including post-arrival assistance and sustainable reintegration to returnees. The signature of Joint Declaration on Migration Cooperation (JDMC) demonstrates Afghanistan’s commitment in this area, which should be acted upon.
- The EU will look into pathways for regular migration, in cooperation with EU Member States and the private sector, drawing on Erasmus+ and depending on the interest of Member States, labour migration projects and eventually a Talent Partnership, as appropriate.
- In view of the likelihood of increased migratory movements, the EU is committed to strengthening cooperation with and support to countries along the migration route from Afghanistan towards the EU, including Turkey and the Western Balkans.

ANNEX I

Existing EU cooperation and areas of engagement under the New Pact

i. Asylum/ international protection

Under the MFF 2014-2020, Afghanistan and Afghans on the move in Pakistan and Iran are the main beneficiaries (EUR 240 million) of two regional measures addressing challenges of migration and forced displacement in Asia and the Middle East (EUR 97 million in 2016 and EUR 215 million in 2017). Humanitarian assistance is addressing humanitarian needs of returnees from Iran.

ii. Addressing root causes

- Ongoing bilateral cooperation under the MFF 2014-2020 (EUR 1.4 billion) focusing on: peace, stability democracy; sustainable growth and jobs; and basic social services (education and health); transparent and accountable governance, as well as economic growth and livelihood opportunities - all contributing to addressing the root causes of irregular migration and are important aspects preventing forced displacement and also pull factors for return.

- The draft future Multiannual Indicative Programme (MIP) 2021-2027 focuses on three priority areas: (i) Enabling Peace, with a focus on Reconciliation, Reintegration, Security and Rule of Law (ii) Strengthening the State, focusing on Strong Institutions and Public Services and (iii) Sustainable Economic Growth, Private Sector Development, Trade and Regional Cooperation, and Employment.

- The Afghan displacement situation will also be addressed in the Regional MIP for Asia-Pacific, where Migration and mobility is proposed as one of three priority areas. Efforts to include Afghanistan in regional programmes for Central Asia will also be enhanced in the programming cycle 2021-2027.

- Cooperation with Afghanistan will be subject to its continued commitment to democracy, human rights, gender equality and transparent and accountable governance.

iii. Migration governance, border management, tackling irregular migration + migrant smuggling

- Continuing programmes in preparation, following a cross-border or regional approach as relevant and based on Afghanistan’s needs.

- Frontex does not currently implement border related activities in Afghanistan and negotiations on a working arrangement with the country are not foreseen. The Commission assessed positively the possibility of deploying a Liaison Officer to Pakistan with a mandate for Afghanistan.

- Regional projects on capacity building for integrated border management (funded by the Commission under MFF 2014-2020 and implemented by International Centre for Migration Policy Development – ICMPD):
  - Silk Routes’ Countries Integrated Border Management project (EUR 12 million)
  - Border Management in Central Asia and Afghanistan project (BOMCA 10 – additional EUR 4 million for Afghanistan) – a possible role for Frontex to implement limited activities is foreseen.

Awareness-raising Campaigns

- Regional Project on Improving Migration Management in the Silk Routes Countries (funded by the Commission under MFF 2014-2020 – EUR 12 million, implemented by ICMPD). An information centre for potential migrants – the Migrant Resource Centre (MRC) has been operating since July 2018 to empower Afghans to make informed decisions on migration by sensitising them to the risks, dangers and consequences of irregular emigration, and alert them to signs of exploitation and ways of protecting themselves against migrant smuggling and trafficking in human beings.
• Info Migrants portal: aims at countering misinformation on the risks of irregular migration, funded by the Commission under MFF 2014-2020.

• Exploring further support for future information campaigns on the risks of irregular migration and the benefits of legal migration for 2022 (2021-2027 programming period).

Counter-Smuggling and Trafficking in Human Beings

• Ongoing Silk Route Project aiming to enhance law enforcement cooperation to address migrant smuggling (funded by the Commission – EUR 1.3 million, implemented by a consortium of Member States led by Austria, participants Hungary and Bulgaria) – until 31 December 2021.

• Ongoing regional action on the fight against trafficking in human beings and migrant smuggling (law enforcement agencies, such as border police and customs, funded by the Commission – implemented by UNODC/GLOACT- EUR 12 million).

iv. Returns, readmission, reintegration

• Reinforced dialogue sought on readmission addressing beyond the technical aspects also conditions of return (e.g. priority areas of return and reintegration, land allocation, the provision of basis services).

• Effective implementation of the Joint Declaration on Migration Cooperation (JDMC) signed on 26 April 2021 (successor of the Joint Way Forward – JWF).

• Work with Member States and the European Return and Reintegration Network (ERRIN) on reintegration assistance to returnees.

• Ongoing Commission funded project entitled “Reintegration and Development Assistance in Afghanistan” (RADA – EUR 50 million, implemented by IOM) supporting sustainable reintegration of returnees within their communities. IOM supports individual returnees from the EU Member States and non-EU countries (i.e. Turkey), as well as Afghan households in communities of high return in Afghanistan.

v. Legal migration and mobility

• Under the last call for proposals for pilot projects on labour migration launched on 28 February 2020 there were no applications related to Afghanistan. Although the priority area for the moment is north Africa, the geographical scope of future Talent Partnerships should be kept wide and opportunities should be sought to include Asian countries, including Afghanistan if there is Member States’ interest.
