IWG-PNR

Brussels 3-4 December 2019

Europol Unclassified: Basic Protection Level

Changes affecting the operational reality

Smart borders: EES and ETIAS

Adjustments to SIS, VIS and Eurodac

Interoperability: ESP, CIR, sBMS, MID, ECRIS-TCN

Implementation of the PNR Directive

Possible adjustments to the API legislation

Redesign of the Import Control System

Future Group: Joint orientation on possibilities

- How to improve the collective efforts in the interest of border management and migration?
- How can border management contribute to more effective criminal investigation?
- How can the new tools and access to information be used in an operational setting
- How can we connect all partners in the new chains of cooperation?

Concept

Series of workshops

Multidisciplinary composition

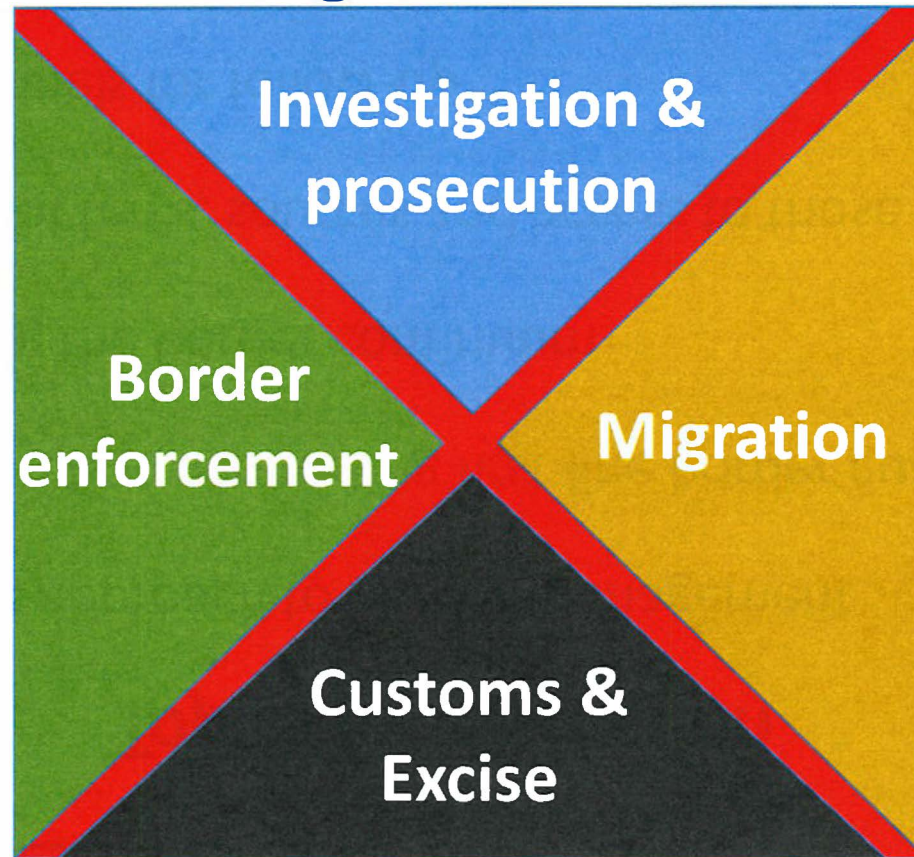

Thematic discussions

Concrete deliverables

Topics for discussion

- Person-centric approach to border management
- Back Office function supporting first-line border guards
- Targeting along the border continuum
- Extending set of tools, sources and access to those
- Choice of channels for follow-up
- Operational pilots – support to investigations

Defining the connections
