Scope**

This Decision shall apply to the processing of personal data provided, pursuant to points (a) or (b) of Article 17(1) of the Regulation, by Member States, the European Public Prosecutor's Office ("EPPO"), Eurojust or third countries in support of an ongoing specific criminal investigation in accordance with Article 18a of the Regulation for which the categories of data subjects are not yet identified in accordance with Annex II of the Regulation.

**Article 2  
Personal data provided by the Member States, the EPPO, Eurojust and third countries**

1. When providing investigative data to Europol in accordance with Article 18a of the Regulation, Member States, the EPPO, Eurojust and third countries shall indicate whether the data contains personal data for which the categories of data subjects are not yet identified in accordance with Annex II of the Regulation. They shall also indicate that the investigative data are provided in the context of an ongoing specific criminal investigation in one or more Member States for which investigative activities are currently being carried out by the national competent authorities in one or more of these Member States or by EPPO. In this context, Europol will request the data providers to confirm at regular intervals that the investigation is still ongoing, at the same time as the confirmation referred to in Article 7(1).
2. Upon receipt of the investigative data, Europol shall verify, on the basis of this indication and the information provided, whether the categories of the data subjects listed in Annex II of the Regulation for the personal data provided are identified or not. The provider shall be informed of the outcome of the verification.
3. Personal data for which the categories of data subjects listed in Annex II of the Regulation are not yet identified, following the verification mentioned in paragraph 2, shall be processed in accordance with Article 18a of the Regulation and with this Decision. They shall be kept functionally separate from other data by being labelled as "DSC not completed". These data shall only be accessible in accordance with Article 5 and the labelling shall be clearly visible to those having access to the data.
4. In case Europol considers, following the verification mentioned in paragraph 2, that for personal data the categories of data subjects listed in Annex II of the Regulation are identified, these data shall be processed in accordance with paragraphs 2 to 5 of Article 18 of the Regulation in line with the determined specific purpose(s).
5. Where the provider of the data has identified the category of data subject in accordance with the categories listed in Annex II of the Regulation of personal data previously provided to Europol, it may inform Europol thereof where appropriate.

In case Europol assesses that this is not possible, it shall record the results of the assessment. Europol shall send the results of this assessment to the EDPS for information when Europol ceases to support the related specific criminal investigation in accordance with Article 7. 2. Europol shall verify that the amount of personal data provided by the third country is not manifestly disproportionate in relation to the specific criminal investigation that Europol supports in the Member State concerned.
