Morocco: High level meeting Frontex-Morocco, 7 October 2020

A high level meeting (2nd Comité Mixte) took place on 7 October between Frontex and Moroccan authorities

The meeting was a follow up to the high level meeting held last 31 October at Frontex, launching a roadmap for technical cooperation in border management.

The meeting was held in a very constructive and positive atmosphere, underling from both sides the interest to deepen cooperation, built on the valuable exchanges already developed.

Frontex underlined the special relation with Morocco (an example of a successful cooperation for the other partner countries).

Both parties recognised the success of the two workshops already organised (a workshop on risk analysis in February in Morocco and a VTC on border vulnerability assessment in June).

Finally, Frontex invited Moroccan authorities to participate to an event focused on the fight against THB (on 15 October), to a workshop on public health procedures in border

management (end October) as well as to the EU-Arab High level Conference in border management (scheduled the first week of December).

Both parties closed the meeting, renewing their commitment to advance on the technical cooperation.

Next Meeting: Migration Dialogue with Morocco (Q4 2020 but nothing scheduled yet)
