

**COUNCIL OF
THE EUROPEAN UNION**

Brussels, 1 March 2010

**5860/1/10
REV 1**

**JAI 92
CRIMORG 16
ENFOPOL 29**

NOTE

from : Presidency
to : Ad hoc Group on Information Exchange
Subject : Implementation of the "Prüm Decisions" regarding fingerprints
– Search capacities

Pursuant to Article 13 of the "Prüm implementing Decision" (Council Decision 2008/616/JHA of 23 June 2008), Member States shall submit declarations to the General Secretariat of the Council in which they lay down their maximum search capacities per day for dactyloscopic data of identified persons and dactyloscopic data of persons not yet identified.

Delegations comply with this obligation by completing the tables set out below as soon as possible (via mail to prum@consilium.europa.eu)¹. Such information is also necessary for other Member States to plan their system developments and their resources to deal with the follow-up to hits. The figures marked in *italic* are the *requested* throughput. To ensure that these are not too high for the other Member States, Member States will have to agree on the acceptable figures. Agreed figures will be indicated in normal print.

¹ UK is currently working on its strategic business case but would be happy to discuss fingerprint exchange with other Member States. As a preliminary indicator, 1000 is the maximum number of fingerprint searches per day the UK would be willing to exchange with other Member States on a proportional and reciprocal basis.

Estimated Throughput (Tenprint against Tenprint)
