Information about Unmanned Autonomous Systems (UAS) (Ref: 47 / 2011)

Request details

1) All documents and correspondence held by the force relating to the potential use of Unmanned Autonomous Systems (UAS).

2) Please can I also request all correspondence, including emails and letters, written between the force and BAE Systems relating to UAS.

And after clarification

I would like to restrict the request to Unmanned Aerial Vehicles rather than Unmanned Autonomous Systems, and to limit it to the last three years.

Our Response

No information held
