Subject: Proposal for a Regulation of the European Parliament and of the Council  
establishing the European Border Surveillance System (EUROSUR)

---

In the context of ongoing negotiations with the European Parliament on the above-mentioned proposal, delegations will find in the Annex the four-column table with Presidency drafting suggestions and comments on the different issues discussed so far with the European Parliament.

The Presidency has met the EP rapporteur and the shadows on 30 January and 26 February 2013. The next trilogue with the EP is scheduled to take place on 27 March 2013.

In negotiations with the EP, the Presidency has proceeded on the basis of the mandate as agreed at JHA Counsellors on 25 January 2013 and has grouped issues together so negotiations have taken place by groups of amendments forming overall compromise packages.

The Presidency believes that good progress has been made in the main blocks of amendments although the EP has requested certain additional changes in a number of areas.

The Presidency intends to structure the discussions in the following order:

1. Objectives of EUROSUR (Article 1 and throughout the text)
2. Fundamental rights (Article 2 paragraph 3 and throughout the text)
3. Scope of EUROSUR (Article 2 paragraph 2)
4. Cooperation with third countries (Article 18)
5. Cooperation with UK and IE (Article 18 bis)
6. Cooperation with other EU bodies and agencies (Article 17)
7. Processing of personal data (Recital 7 and Article 12a)
8. Other issues including the recitals

The Presidency requests that delegations look at the proposed compromises on each of the 8 areas above as a balanced package and recommends its acceptance on that basis.

*For the purpose of making further progress at the next trilogue, the Presidency invites delegations to agree with the Presidency's suggestions as set out in the fourth column of the four-column table set out in the Annex.*

	<p><i>(1a) The practice of travelling in small and unseaworthy vessels has dramatically increased the number of migrants and refugees drowning at the southern maritime external borders. 	<b>AM 6</b>		
	<p><i>(1b) Migration and the crossing of external borders by third-country nationals should not per se be considered to be a threat to public policy or internal security. A border surveillance system should not be built on the assumption that irregular migration is a pattern among third-country nationals.</i></p>		<p>EP ready to drop AM 6 if a satisfactory agreement is reached.</p>

	<b>AM 7</b>		
	<i>(1c) A mechanism should be established for a quick and effective determining of the Member State responsible for rendering assistance and rescuing persons in distress who are aboard of vessels that have been detected.</i>		EP AM 7 unacceptable for the Council linked to AMS 61, 73 and 80. EP ready to drop it in the context of an overall compromise for the amendments regarding the protection and saving of lives which includes a reference to this in Articles 1 and 2.
(2) Member States should establish national coordination centres for border surveillance to improve the cooperation and information exchange between them and with the Agency. It is essential for the proper functioning of EUROSUR that all national authorities with a responsibility for external border surveillance under national law are cooperating via national coordination centres.		(2) Member States (...) establish national coordination centres (...) to improve the cooperation and information exchange <b>for border surveillance</b> between them and with the Agency. It is essential for the proper functioning of EUROSUR that all national authorities with a responsibility for external border surveillance under national law (...) cooperate via national coordination centres.	EP accepts Council text but suggests to reinsert the word "should".
(3) This Regulation should not hinder Member States from making their national coordination centres also responsible for coordinating the information exchange and cooperation with regard to the surveillance of air borders and for checks at border crossing points.			

	<b>AM 8</b>		
	<i>(3a) This Regulation requires that the Agency improves the cooperation and information exchange with other Union bodies and agencies, such as the European Maritime Safety Agency and the EU Satellite Centre, in order to make best use of existing information, capabilities and systems which are already available at European level.</i>		The Presidency suggests to accept EP AM 8.
(4) This Regulation forms part of the European model of integrated border management of the external borders and of the Internal Security Strategy of the European Union. EUROSUR also contributes to the development of the Common Information Sharing Environment for the surveillance of the EU maritime domain (CISE), providing a wider framework for maritime situational awareness through information exchange amongst public authorities across sectors in the Union.			New compromise by the Presidency to replace AMS 70 and 87:  (4) This Regulation forms part of the European model of integrated border management of the external borders and of the Internal Security Strategy of the European Union. <b><u>EUROSUR should provide relevant information for the Schengen evaluation mechanism</u></b> and also contribute to the development of the Common Information Sharing Environment for the surveillance of the EU maritime domain (CISE), providing a wider framework for maritime situational awareness through information exchange amongst public authorities across sectors in the Union

For this purpose, the procedure for the establishment, implementation and control of its budget as set out in Articles 29 and 30 of Regulation (EC) No 2007/2004 should take due account of these tasks. As regards Croatia the Presidency in consultation with the CLS and the Commission suggests the following:

1) If the accession of Croatia takes place before the adoption of the Eurosur regulation, then Croatia can be listed among the Member States in Article 21(3).

2) However, if the accession of Croatia will not take place before the adoption of the Eurosur regulation, a recital should be introduced which would be along the lines:

*"As regards Croatia, this Regulation constitutes a provision of the Schengen acquis within the meaning of article 4 (1) of the Act of accession. Given that Croatia is located at the southern external border of the EU, Croatia should be included among the Member States referred to in article 21(3)."*

*In addition, based on the Treaty of accession, the Commission would propose a technical adaptation of Article 21 (3) to include Croatia among the Member States in Article 21 (3).*
